FRENCHMEN no longer have any national ambition. They no longer will do anything for France. I amused them with flags. . . . Even the English have no more national ambition.

—De Gaulle to Malraux.

A Conversation: De Gaulle and Malraux

By James Goldsborough

PARIS, Feb. 26.—Gen. de Gaulle felt both bitterness and frustration over his rejection by the French people in the 1969 referendum, according to André Malraux's moving account of his last meeting with De Gaulle, an account published today.

Excerpts from his forthcoming book on their last meeting, "Les Chênes Qu'on Abat" (Fallen Oaks), which is also part of Volume II of the "Antimémoires," André Malraux recounts the day Dec. 11, 1969, when he was invited for the last time to Colombey-les-Deux-Eglises. Mr. Malraux was one of the few people outside De Gaulle's family to visit him following the referendum, and, as he points out, was the only man of letters.

In a preface to the article, appearing in the Paris newspaper Le Figaro today, Mr. Malraux laments that the great writers of other times have not left a great artists to record the dialogue. It is the point, he says, of his book.

The account, in dialogue form, is filled with De Gaulle's bitterness and often bitter allusions to people, nations and events just 11 months before his death. It reveals his thoughts on the events that toppled him from power and his successors—thoughts which he intended to publish as the last volume of his memoirs. But it is dominated by the kind of philosophical almost mystical exchanges that De Gaulle could have with his former culture minister.

In the portrait he paints of Mr. Malraux, De Gaulle suggests himself, of Frederick the Great, disappointed with the world, who has invited Voltaire to talk of more important things.

Keystone.
Charles de Gaulle

Keystone.
André Malraux

At one point De Gaulle asks Mr. Malraux if life has a meaning, and the writer, quoting Einstein, answers: "The most surprising of all is that the world almost certainly has a meaning." Unsatisfied, De Gaulle asks: "And death, what is that?"

"The goddess of sleep," replies Mr. Malraux. "Dying never has interested me; nor you either. We belong to those people who are indifferent to being killed. . . ."

The two men set off on a long discussion of suitcases—the symbol of worldly accomplishments left behind at death. For De Gaulle, the suitcases must be ignored or forgotten. "Free yourself from them," he says. He asks Mr. Malraux how to escape the suitcases, and the writer answers simply, "Live in the present."

De Gaulle reflects: "The only serious thing Stalin ever said to me was 'In the end, it is only death that wins'."

There are other statesmen who cross through the dialogue on this snowy winter day as the two men walk in the gardens behind the general's home and chat in his library before lunch. Lyndon Johnson, John Foster Dulles, Nehru, Georges Pompidou. He has few kind words for today's leaders.

The United States? "I don't think that the United States, despite its power, has a long-term design. Their desire, which they will one day satisfy, is to abandon Europe."

Russia? "Russia wants to gain time."

France? "France doesn't have any design at all."

When De Gaulle talks of post-De Gaulle France, and his successors, he shows great bitterness. "What's going on now," he says, "doesn't concern me at all. It's not what I wanted. It's something else.

"When I left power [following defeat in the 1969 referendum] age was perhaps a factor. It's possible, but, you understand, I had a contract with France. For better or for worse, France was with me. . . .

"The contract was broken. Alors, it's not worth it anymore. This contract was capital for it had no form; it never did. It was without hereditary rights, without referendum, without anything that I was brought to take charge of France's defense and her des-

UN Handed Peace Note By Israelis

Reply to Egypt On Withdrawal

UNITED NATIONS, N.Y., Feb. 26 (AP).—Israel today handed UN mediator Gunnar V. Jarring its reply to the latest Egyptian proposals on a Middle East settlement.

Israeli Ambassador Yosef Tekoah delivered the reply but would not disclose its contents to newsmen. Statements from Jerusalem, however, have insisted that Israel would not agree to withdraw from all Arab territory occupied in the 1967 war.

Egypt has insisted that this is a necessary condition for peace.

The Israeli cabinet said that Israel was still ready to discuss withdrawal—toward secure, recognized boundaries, to be established in peace agreements. It said that the discussions should continue under Mr. Jarring's auspices without "prior commitments on the outstanding issues."

Nixon Mideast Views Upset Israeli Cabinet

By Jonathan C. Randal

JERUSALEM, Feb. 26 (WP).—Official sources close to the Israeli Foreign Ministry chose today to play down what they considered to be the negative implications of President Nixon's remarks yesterday on the Israeli position in the Middle East negotiations.

The sources said that they considered Mr. Nixon's remarks, in his State of the World address, to be a balanced rehash of previously stated U.S. positions.

Foreign Minister Abba Eban was reported to have decided on this bland stance on the theory that graver tensions with the United States—Israel's only major ally—were foreseeable in the future and now was not the moment for Israeli anger to surface.

Particularly unpleasant to Israeli government thinking was the President's reaffirmation of U.S. policy advocating only "insubstantial" border changes and his personal mention that no Middle East peace was possible "without addressing the legitimate aspirations of the Palestinian people."

Israelis noted that, in lengthy exchanges with Washington last fall, before Israel agreed to return to the Jarring talks, they had been given the impression that the United States would not press the minimal border change brief, which has been associated with Secretary of State William P. Rogers.

Not only did the President's statement repeat the Rogers plan's language but it also failed to mention Israel's case for "defensible

United Press International
BERLIN MEETING—East German State Secretary Michael Kohl (foreground) and his West German counterpart Egon Bahr (behind him) leave Palais Schaumburg in Bonn yesterday. This is the first photograph of the two delegations since start of the talks last year.

'Interesting,' Bahr Says

Aides of Two Germanys Hold 6-Hour Talk, Longest So Far

By David Binder

BONN, Feb. 26 (NYT).—The governments of West and East Germany held their seventh, and longest, round of discussions here today on how to regulate ties between their two antagonistic states.

Chancellor Willy Brandt's state secretary, Egon Bahr, reported afterward that his six-and-one-half-hour meeting in Bonn with the delegation led by his East Berlin counterpart, Michael Kohl, had been "more interesting" than its predecessors.

According to West German officials, the dialogue begun last October has the double aim of arranging a general treaty between the two German states and, at the appropriate time, of supplementing a four-power settlement of the Berlin problem with a Bonn-East Berlin agreement on transit.

Until recently the East Berlin government has sought to undercut the four-power ambassadorial talks of the United States, the Soviet Union, Britain and France by seeking a prior Berlin pact with Bonn. West Germany has rejected all bids in this direction.

Two days ago Premier Willi Stoph indicated in a letter to West Berlin's Mayor Klaus Schuetz that his East German government was prepared to acknowledge the precedence of the four-power negotiations.

Mayor Schuetz's reply, published today, was relatively cool in tone. But he said that his city government, too, was prepared to join the negotiating sequence when given permission by the four powers. Meanwhile, Mayor Schuetz said, talks could begin between East and West Berlin about East Germany's offer to permit West Berliners to resume visits to East Berlin and East Germany, from which they have been barred for years.

Saigon Battalion Badly Mauled by Foe at Laos Base

By Alvin Shuster

SAIGON, Feb. 26 (NYT).—Enemy tanks and infantry badly mauled a South Vietnamese battalion yesterday and today in some of the fiercest fighting since the start of the allied attack against the Ho Chi Minh Trail network.

The battalion, estimated at about 500 paratroopers and artillerymen, occupied a position designated as Hill 31 not far from the battalion of South Vietnamese Rangers that was hard-hit by enemy attacks last weekend. The latest setback came at a position six miles inside Laos, about 15 miles northwest of Lang Vei on the border.

Official South Vietnamese sources in Saigon insisted tonight that the hill position, which overlooks one of the enemy supply trails, had not been overrun. But field reports from the base at Khe Sanh in South Vietnam quoted South Vietnamese officers and American helicopter pilots as saying that the South Vietnamese had been forced to give up many of their defensive positions.

Gen. Hoang Xuan Lam, the commander of the South Vietnamese forces that crossed the border nearly three weeks ago, said both sides now controlled parts of the hill. Speaking to reporters at Khe Sanh, he said reinforcements were on the way and that "we are again attacking to regain control of the hill."

"There was very close combat and hand-to-hand fighting many times," he said.

U.S. aircraft pounded the attacking enemy troops and tanks around Hill 31 again today. American and South Vietnamese helicopter pilots reported from the field that enemy anti-aircraft fire around Hill 31 had made rescue missions of downed pilots impossible until today. Lt. Col. Robert F. Molinelli, the commander of the American helicopters providing support for the South Vietnamese operation, said today:

"Never has anti-aircraft fire been so heavy as in the past two days around Hill 30 and Hill 31."

Hill 30, a nearby position also occupied by South Vietnamese airborne troops, has been under increasing enemy attack this week as well. American reconnaissance pilots reported this afternoon that several North Vietnamese tanks were seen grouping around Hill 30.

Field reports placed the number of attacking tanks around Hill 31 at about 20, which reportedly came in five waves of four tanks each. An official spokesman in Saigon today said that eight of the Soviet-made tanks were destroyed by American airpower.

Base Penetrated

The South Vietnamese command also estimated the strength of the enemy as a regiment, perhaps as many as 2,000 men. He said: "A number of the enemy had penetrated into the base and fighting is going on."

No accurate estimates of casualties were available tonight. But they were expected to be heavy. Gen. Lam said that perhaps 1,000 enemy soldiers had been killed.

As the paratroopers sought to defend their embattled hill positions, enemy troops also attacked an artillery base and an infantry battalion position south of Highway 9 in Laos this morning. Saigon command spokesmen said here that both attacks were driven off.

The command reported that 45 enemy soldiers were killed in one attack and eight in the other. South Vietnamese losses were put at three killed and 15 wounded.

Cambodian Battle Reported

PHNOM PENH, Feb. 26 (Reuters).—Cambodian troops were locked in battle today with a concentration of Viet Cong infantry about five miles north of the western provincial capital of Pursat, the high command reported tonight.

A spokesman said only a brief radio message had been received from the scene and all that was known was that fighting was continuing. There were no details of casualties on either side.

Earlier today, the Viet Cong fired two mortar rounds at the rail bridge at Koh Kuy, 11 miles northwest of the capital, but no damage was reported.

AP.
Henry Kissinger

No Invasion Of North Seen By Kissinger

WASHINGTON, Feb. 26 (Reuters).—Henry Kissinger, President Nixon's national-security adviser, today discounted the possibility of a South Vietnamese invasion of North Vietnam.

He implied in a television interview that such a move is unlikely because of the danger that it would draw China directly into the conflict.

Mr. Kissinger's comments came against a background of increasing concern in Congress about reports that a South Vietnamese incursion into North Vietnam might become a possibility.

President Nixon has refused to speculate on what the South Vietnamese might do in the interests of their national security.

Mr. Kissinger said that his assessment of the threat of Chinese intervention, which has been raised by Hanoi's delegates to the Paris peace talks, is based on "the best assessment we can make of their actions and statements and of Chinese and North Vietnamese incentives."

He said the war is still 400 miles from China's border, and the general U.S. assessment is that Peking is not looking at this moment for involvement.

Invasion of North

Asked about a possible thrust into the North by the South Vietnamese, he said this is a novel proposition in that so far the North Vietnamese have invaded other countries of Indochina and that the idea of a retaliatory invasion of the North would have been unthinkable a year ago.

Discussion of such a possibility is an indication of the way in which the conflict has evolved, he said.

"It is not a dominant probability at this moment," he said. He added that the United States will certainly make the decision about any U.S. participation in such a move.

"The South Vietnamese could not involve us in any logistical involvement without the decision of the President of the United States," he said.

Mr. Kissinger remained optimistic about the military capabilities of the South Vietnamese forces despite their second setback in Laos this week with the reported overrunning of a key hill position by Communist forces.

He said the United States expected the South Vietnamese would suffer occasional setbacks

Army Is Set to Try Colonel For Whitewash on My Lai

WASHINGTON, Feb. 26 (Reuters).—The Army today announced that Col. Oran K. Henderson will be court-martialed on charges that he willfully failed to conduct a proper and thorough investigation of the alleged My Lai massacre in March, 1968.

Col. Henderson was charged with being derelict in the performance of his duties as investigating officer of the My Lai incident, in which hundreds of men, women and children are alleged to have been killed by U.S. troops.

The Army set no date for the initial session of the court-martial.

Col. Henderson was commanding officer of the infantry brigade of the Americal Division, which was involved in the sweep at My Lai.

The Army announced that charges against Capt. Dennis H. Johnson, who was accused along with Col. Henderson, are being dismissed because of insufficient evidence.

Capt. Johnson, who was formerly assigned to the 52d Military Intelligence Detachment, was accused of failing to obey lawful regulations.

Originally 14 officers were accused of a variety of charges in the alleged cover-up and apparent mishandling of the field investigation of the incident in the South Vietnamese hamlet.

Charges against 13 of them have been dismissed, and Col. Henderson is the only one to face a court-martial.

This leaves four of the original 25 servicemen accused in the My Lai affair still facing charges.

Lt. William L. Calley, the platoon leader, is at present before a court-martial in Fort Benning, Ga., accused of 102 murders.

Investigations are being conducted into charges against Capt. Ernest Medina, Lt. Calley's immediate commanding officer, who is accused of murder and of maiming a prisoner, and against Capt. Eugene Kotouc, an intelligence officer charged with assault, maiming and murder.

Capt. Medina has also been charged with responsibility for all the deaths at My Lai.

Other charges against Col. Henderson include failing to report to his commanding officer and to the military command in Vietnam incidents and acts thought or alleged to be war crimes, namely the death of civilians at My Lai.

He was also charged with giving false statements about the incident to an Army investigating team headed by Lt. Gen. William Peers, which was attemping to determine whether there was a cover-up in the initial investigation of the massacre.

Gold Mine Explosion In S. Africa Kills 20

JOHANNESBURG, Feb. 26 (AP).—Twenty African miners are known to have died in a methane explosion at Virginia Gold Mine in Orange Free State Province today.

A mine spokesman said that the death toll rose from 15 following the discovery late tonight of five more bodies.

Soft-Liners In Paris

Treatment of Jews Cited

U.S. Charges Soviet Violation Of Human Rights Declaration

GENEVA, Feb. 26 (UPI).—The United States officially charged the Soviet Union today with widescale discrimination against Jews.

It called on Moscow to permit Jews to leave the Soviet Union in accordance with the Universal Declaration of Human Rights.

The charge of discrimination against Jews was made in a statement to the UN Commission on Human Rights by Rita E. Hauser, head of the American delegation.

"It is the considered view of my delegation that discrimination against Jews persists on a wide scale in the Soviet Union," she said.

By refusing to freely permit Jews to emigrate, the statement said, the Soviet Union is violating the Declaration of Human Rights to which it subscribed.

"My delegation wishes to emphasize that our discussion of the issue of discrimination against Soviet Jews is not politically motivated but concerns a basic human right, universally recognized," Mrs. Hauser said.

"It does not in any way militate against the general policy of my government, clearly stated by President Nixon, of good will toward, and peaceful relations with, the Soviet Union," she said.

"We hope the Soviet government will appreciate the keen interest felt in the United States, by Jews and non-Jews alike, that the large Jewish minority group in the Soviet Union be assured the right to be free of discrimination and to practice its religion freely and fully."

Declaration Cited

The statement continued:

"We also hope that all those people in the Soviet Union, whatever their nationality, who wish to leave to find their future elsewhere will not be impeded in exercising the important right confirmed by this commission in Article 12 of the Universal Declaration of Human Rights, which says that 'Everyone has the right to leave any country, including his own, and to return to his country.'"

The commission, at its 27th annual session here, scheduled a debate on this article.

The Soviet delegation attempted but failed to have the item removed from the agenda.

The U.S. statement said that some Soviet Jews have been allowed to emigrate but "many others have not."

The 11 persons tried in Leningrad for attempting to hijack an airliner because they were refused permission to leave the Soviet Union were not tried for conspiracy but for attempting to flee abroad without permission, "which in the Soviet Union is a crime punishable as treason," the statement said.

It said that the death sentences pronounced against two of the defendants were commuted only after an "unprecedented public outcry."

"My delegation sincerely hopes that other trials of a similar nature, which have been previously announced, will not be pressed by the Soviet government," Mrs. Hauser said.

Israel Accuses Russia

GENEVA, Feb. 26 (UPI).—Israel said today that "tens of thousands" of Jews in the Soviet Union have registered for emigration because of discrimination.

"But in all but a few highly publicized cases the gates of the Soviet Union to the world outside are locked and barred," Israel told the UN Commission on Human Rights.

Pentagon Says GIs Can Go Into Laos to Rescue Fliers

By Robert Siner

WASHINGTON, Feb. 26.—The Pentagon today said that U.S. infantrymen would be sent into Laos to protect the lives of American fliers shot down there.

A Defense Department spokesman, Jerry Friedman, told newsmen that small infantry teams would be sent into Laos to rescue downed fliers but insisted that this would not violate the Cooper-Church resolution, which prohibits the use of the American combat forces in Indochina beyond South Vietnam.

Mr. Friedheim explained that "if we used security forces as part of a search and rescue team, we would regard them as rescue forces and not as combat troops."

Another spokesman said that a search and rescue team usually consists of one to three helicopters carrying medical personnel. If infantrymen accompanied the mission, the force would be of "the minimum size necessary to save American lives," up to nine men, he added.

Mr. Friedheim said that these troops would provide "protective encirclement" to protect the rescue team.

Egypt Will Ignore Israel's Answer, Await Action by Jarring, Big Four

CAIRO, Feb. 26 (AP).—Egypt declared today that it will ignore Israel's reply to a document submitted by Cairo to United Nations mediator Gunnar Jarring *while waiting for further action* by Mr. Jarring and the Big Four.

The next step, the semiofficial newspaper Al Ahram hinted, will be the convening of an urgent meeting of the UN Security Council before the current extension of the Arab-Israeli cease-fire expires next week.

Al-Ahram, in a front-page report, said that Egypt is basing its attitude on Israel's "gross trickery" in dealing with proposals submitted by Mr. Jarring earlier this month to both Egypt and Israel.

Al-Ahram, revealing for the first time the exact formula used by Mr. Jarring, said that the Swedish diplomat had also submitted the draft of a reply containing the pledges he expected to receive.

Al-Ahram said Mr. Jarring emphatically asked the Egyptians and Israelis "not to change a single word" in the document, to avoid creating "countless problems."

Egypt, after receiving clarifications from Mr. Jarring to some 30 questions related to the document, complied with his request and signed, Al-Ahram said.

It charged that Israel cheated by delaying its reply to Mr. Jarring, although, it said, he had asked that the replies be submitted simultaneously.

Instead, the paper said, Israel "began preparing a reply for the Egyptian reply."

Al Ahram declared, "Egypt is determined to pin Israel to the present situation, namely to pin it to the Jarring document, containing a clear pledge for withdrawal in accordance with the Security Council resolution of November, 1967."

"The circumstances imply a big responsibility," Al Ahram said, in evident reference to the approaching cease-fire deadline, "and Egypt is not waiting only for what Jarring will do, but for the reaction of the Big Four and the Security Council as well."

Nixon's Remarks

The paper also said that Cairo is studying with great interest remarks on the Middle East made by President Nixon in his state-of-the-world message yesterday.

"Despite some traditional attitudes which express American bias toward Israel, the speech contained new indicators worthy of attention," Al Ahram said.

It cited these as "Nixon's realisation that the Arab countries are *determined to regain their occupied* lands; his reference to "the legitimate aspirations of the Palestinian people"; the fact that he did not espouse the Israeli interpretation linking peace guarantees with a new border strategy, and that he used the term "minor adjustments."

The paper pointed out in this connection that this is the same term used by France to imply only "administrative and mutual adjustments" between Israel and Jordan.

Jordan Lauds Nixon

AMMAN, Feb. 26 (UPI).—Jordan praised President Nixon today for showing an understanding of the Middle East crisis and seeking to end it.

But it warned that no permanent settlement is possible without the return of Arab territory won by Israel during the 1967 war.

Foreign Minister Abdullah Salah, in a news conference, issued the third Jordanian warning in consecutive days against any attempt to set up a separate Palestinian state outside of what is now Israel.

In a conference with newsmen, Mr. Salah said Mr. Nixon's remarks "showed an understanding of the Middle East crisis and an attempt to find a settlement."

"We have big hopes," he said, "that the American administration, through Nixon's and his assistants' understanding of the seriousness of the position . . . and the willingness of Egypt and Jordan to find a settlement . . . will take all measures to guarantee a permanent, just and honorable settlement."

U.S. and Israel

Mr. Salah noted that "there is no change concerning American acceptance of many Israeli points of view" and said: "It is not possible for any settlement to be permanent if it does not give back the Arab territories lost in the (1967) war. The Big Four powers should give guarantees for a settlement."

The Jordanian minister noted that Mr. Nixon had referred to the legal rights of the Palestinian people. "If the United States now recognizes the injustice done to Palestinians, the next step should be to point out how this injustice can be righted," he said.

Mr. Salah said the solution did not come within the framework of "founding a weak Palestinian state that would fall under the influence of Israel and would be used as a penetration point into the Arab world."

Mr. Salah's statement followed warnings yesterday by Prime Minister Wasfi Tel and Wednesday by the Jordanian parliament against any plan to start a state of Palestine in the Jordan west bank and the Gaza Strip.

Israel Delivers Note to UN Replying to Egyptian Views

(Continued from Page 1)

borders"—the favored vague terminology here—which he used once last July.

Israeli sensitivities were also upset by his reference to the Palestinians' "legitime aspirations"—less because of the content, which had been voiced last fall by White House and State Department spokesmen, than because it was made by the President himself.

Still unclear at this stage was the mood within Premier Golda Meir's cabinet now that the United States has begun to apply pressure in earnest.

Already some Israeli commentators have suggested that the 12 deputies of the religious parties would force their three ministers to quit the government coalition over the withdrawal question. If that happened, Mrs. Meir's majority in the 120-seat parliament would depend on four Israeli Arab deputies. Such a thin, and in some quarters questionable, margin would allow her government to conclude any treaty with Egypt, her opponents argue.

Already the Gahal party, which left the government last summer to protest the cease-fire, is playing on the theme that any decision to withdraw should be sanctioned by either a national referendum or new national elections.

Leading Palestinian Wants West Bank Kept From Jordan

By Jesse W. Lewis Jr.

BEIRUT, Feb. 26 (WP).—A leading member of the Palestinian movement yesterday proposed that the West Bank of Jordan, now under Israeli occupation, not be returned to King Hussein's regime if there is a Middle East peace settlement.

The proposal by Chafic el-Hout, the director of the Palestine Liberation Organization's Beirut office, is not an endorsement of the idea of a separate West Bank state—at least the concept of the state now current in the Arab world.

Rather, Mr. el-Hout referred to the "basic contradictions" between King Hussein and the Palestinian movement, which he said cannot be solved.

Mr. el-Hout made his proposal in an article in yesterday's issue of el-Moharrir, a pro-Egyptian newspaper published in Beirut.

Parliament for Refugees

His article is significant for several reasons. First, it appeared before Sunday's scheduled meeting of the Palestine National Council in Cairo. The 115-member council acts as a parliament for the approximately 1.5 million Palestinian refugees.

Second, Mr. el-Hout's proposal represents an effort on the part of the PLO leadership to appeal to the Palestinians living on the West Bank. The majority of those Palestinians want the occupation to end, but many are wary of returning to King Hussein's rule.

And third, the article recognizes that there may be a political solution to the Arab-Israeli conflict in spite of strong guerrilla opposition.

To Poll Leaders

The basic issue facing the Palestine National Council this weekend is what to do next. "This is probably the most important Palestinian conference in the history of the movement," said one well-informed observer.

In an effort to ensure that its decisions will have a wider stamp of authority, the PLO announced plans to poll 100 Palestinian leaders who are not council members. This is seen here as a concession to Brig. Abdul Razzak Yahya, commander of the Palestine Liberation Army, who recently criticized the guerrilla leadership for being poor politicians.

The liberation army is composed of Palestinian units attached to the regular forces of Egypt, Syria and Iraq. Although the liberation army is nominally under the PLO, in fact it is controlled by those Arab countries.

An important part of what the guerrilla movement should do next involves the future of the West Bank. Because the notion of a separate West Bank state is viewed by most Arabs as an Israeli idea, it is usually rejected out of hand.

Palestinian Summit Set

CAIRO, Feb. 26 (UPI).—More than 100 Palestinian leaders will meet here Sunday to discuss the condition of their exile nation.

The Middle East News Agency said a meeting of the 115-member Palestinian National Council, a "government-in-exile," would start Sunday, 24 hours later than scheduled because of the Moslem new year today.

The council will discuss two major issues, sources said. These are unity of the guerrilla movement and "establishment of a separate Palestine state."

Senate Bumper Bill

WASHINGTON, Feb. 26 (AP).—U.S. auto manufacturers would be required to equip cars made after 1974 with bumpers capable of withstanding ten-mile-an-hour collisions without body damage, under a new bill introduced in the Senate.

France Protests to Algeria On Oil-Property Takeover

PARIS, Feb. 26 (AP).—The French government formally protested today Algeria's seizure of control in French petroleum companies and nationalization of French-financed gas and oil pipelines.

Hervé Alphand, secretary-general of the French Foreign Ministry, called in Algerian Ambassador Mohammed Bedjaoui and gave him a note which said France "formally reserves its rights" guaranteed by the 1965 hydrocarbon agreement. The agreement, which was to run for 15 years, prevents unilateral action by either side. One of the clauses says that disputes should be negotiated or submitted to international arbitration.

Last night official French sources said the Algerian move "leads to a profound modification in the nature of relations" between the two countries. But neither that statement nor today's formal protest made it clear what France intends to do.

Algeria made the unilateral takeover Wednesday during stalled negotiations on new oil-pricing and *taxation arrangements.*

During seven months of talks, Algerian negotiators have insisted on eventual control of French oil companies operating in Algeria.

Associated Press

HANGING in effigy in London's Hyde Park is British postal chief Bill Ryland. He is swinging from a scaffold carried by black-hooded bearers at a rally of striking postal workers and their supporters yesterday.

Bobbies Win a 16.5% Raise, Irk Mailmen, Who Ask 13%

LONDON, Feb. 26 (AP).—A pay raise for 100,000 British policemen today fanned the grievances of postmen and automobile workers staging two long and crippling strikes throughout the nation.

The bobbies won increases averaging 16.5 percent, well above the maximum 10 percent level which the Conservative government holds necessary to curb inflation.

Cries of outrage came from leaders of the striking postal and Ford workers, who also want pay hikes exceeding the officially accepted mark.

Raise Is Defended

Government sources defended the police raise, however, as "a special case" because the force is seriously undermanned and needs to attract recruits.

Backdated to last September, the police award will add more than $52.8 million to the force's annual wage bill of $338 million.

The new scales lift the minimum starting rate for a constable from $2,160 to $2,455 a year.

Tom Jackson, leader of more than 200,000 postal workers now in the sixth week of their walkout, told newsmen: "These pay increases for the police more than justify the stand we are taking. They make the Post Office attitude even more inexplicable."

Mr. Jackson's union is demanding raises of 13 percent on weekly wages ranging from $36 to $65. The Post Office, a publicly financed outfit like the police force, offers 9 percent tied to a promise of higher productivity.

$60 Million Loss

Top-level efforts have repeatedly failed to settle the strike, which has halted mail deliveries throughout Britain and cost the Post Office $60 million in lost revenue thus far.

The police raise was described as "baffling" by Sid Harraway, a leader of the four-week-old Ford strike which has already deprived the company of automobile production worth $96 million.

Arab Sabotage Blamed for 1970 Swiss Jet Crash

BERN, Feb. 26 (AP).—An Israel-bound Swissair jet liner, which crashed killing 47 people nearly a year ago, was almost certainly sabotaged by Arab terrorists, it was disclosed yesterday.

Kurt Lier, head of the Swiss Federal Transport Ministry's office for investigation of aviation accidents, told a reporter that this was established—"with a probability that borders on certainty"—by his inquiry, which is nearly finished.

Immediately after the crash Feb. 21, 1970, at Wuerenlingen, a spokesman for the Popular Liberation Front of Palestine claimed responsibility. Later this was denied, and some Arab sources at the time even suggested the crash was an Israeli plot.

Mr. Lier said the evidence confirmed that the original claim was correct.

Swissair Crew Subdues Arab on Flight to Israel

GENEVA, Feb. 26 (Reuters).—Crewmen subdued a young Arab who drew a knife and began shouting and threatening passengers on a Swissair flight from Zurich to Tel Aviv yesterday, Swissair said here today.

The man was handed over to the authorities at Tel Aviv on landing, the airline said. Israeli police identified the man as Muhmad Sa'id, 28, a resident of Jenin on the occupied West Bank of the Jordan River.

"One cannot speak of an attempt to hijack or sabotage the aircraft," Swissair said.

Belgians Search U.S. Jewish Group

BRUSSELS, Feb. 26 (AP).—All American participants in the Brussels meeting of Jewish communities were searched today before boarding their plane for New York.

Brussels airport was packed with state police. Six policemen with machine guns guarded the Sabena jet. Each of the 191 Americans was searched. The wife of a state policeman had been hired especially to search women passengers.

Israeli patricipants had left earlier on a special plane for Tel Aviv but fewer security measures were taken for them.

Lebanese Gets Life As Spy for Israelis

BEIRUT, Feb. 26 (AP).—A Beirut military court sentenced 51-year-old Lebanese Antoine Khoury to death Wednesday for spying for Israel. However, the sentence was commuted to life imprisonment at hard labor.

The court said Khoury spied for Israel from 1962 until his arrest last year, passing military information about the Lebanese and Syrian Armies and Palestinian guerrilla movements to Israeli intelligence officers in Rome, Athens and Cyprus.

4th Site Depends on SALT

Nixon to Seek $1.28 Billion For 3 Safeguard Complexes

By William Beecher

WASHINGTON, Feb. 26 (NYT).—President Nixon has decided to continue a *modest Safeguard missile* defense program, with an unusual "either-or" feature, according to ranking administration officials.

The plan, to be unveiled fully in a lengthy "posture" statement by Defense Secretary Melvin R. Laird within the next two weeks, will seek about $1.28 billion to continue building defenses around Minuteman missile complexes in Montana, South Dakota and Missouri, the officials say.

It will also ask authority to start construction at a fourth Minuteman complex, in Wyoming, or to begin preliminary site surveys for a missile defense around Washington. The final choice is to be made by the President after completion of the next round of strategic arms limitation talks with the Soviet Union.

SALT Resumes March 15

The talks are scheduled to resume in Vienna on March 15 and will probably last about two or three months, officials say.

Thus, in May or June, if Congress approves Mr. Nixon's request, the President could announce his choice between a *missile defense around* the nation's capital or Minuteman silos near Warren Air Force Base in Wyoming.

This approach, officials say, represents a compromise between the recommendations of the Pentagon, which urged defenses at four Minuteman sites plus preliminary work around Washington, and the Arms Control and Disarmament Agency, which suggested a cutback to only two Minuteman complexes.

The White House solution is designed to continue moving toward a possible 12-site nationwide defense—if the arms talks fail to produce a limitation on offensive and defensive nuclear weapons—without precluding an agreement on a much more modest defense.

Warning by Congressmen

It is understood that congressmen friendly to the Safeguard program have warned the administration that while Congress probably would approve an expansion of the Minuteman defenses without much of a fight, the proposal for even preliminary preparation of defenses around Washington might trigger a major debate.

In his State of the World message yesterday, Mr. Nixon stressed his desire to maintain "maximum flexibility" in his missile defense program.

He reiterated the elements previously advanced for a nationwide missile defense: a growing Soviet missile threat, a fledgling Communist Chinese missile program, the possibility of an accidental launching of a handful of missiles against the United States and the danger of an attack on Washington that might undermine the ability of top authorities to respond "appropriately" to the attack.

The President added a new note that reflects a growing malaise among some administration planners. It is not clear, he said, that "even at present levels of Soviet forces, future qualitative improvements would not endanger our [intercontinental missiles] forces."

Premise of Proposal

The premise underlying the U.S. arms control proposal last August was that if the Soviet Union would agree to freeze the number of its intercontinental missiles, and specifically level off its giant SS-9 force at either 250 or 300, the American Minuteman force would be safe from overwhelming surprise attack, and thus missile defenses around Minuteman sites might be given up, with defenses possibly limited to Washington and Moscow.

This, in turn, was based on the estimate that it would take 420 Soviet SS-9s, each fitted with three five-megaton warheads, to destroy most of the 1,000 American Minutemen. Now, a growing body of experts is suggesting that even the current force of just under 300 SS-9s, if each were equipped with six two-megaton warheads, could wipe out most of the Minutemen.

112-Member Unit Of Palestinians to Meet in Cairo

CAIRO, Feb. 25 (UPI).—More than 100 Palestinian leaders will meet here Sunday to discuss the condition of their exile nation.

The Middle East News Agency said a meeting of the 112-member Palestinian National Council, a "government-in-exile," would start Sunday, 24 hours later than scheduled because of the Moslem new year tomorrow.

The council will discuss two major issues, sources said. These are unity of the guerrilla movement and "establishment of a separate Palestine state."

Commando leaders have publicly rejected the idea of a separate state of Palestine outside of what is now Israel, but the idea has gained impetus as a result of Egypt's moves toward a political settlement.

Tornado Death Toll Rises to 111 in Delta

INVERNESS, Miss., Feb. 26 (AP).—The death toll has risen to 111 in the aftermath of tornadoes which hit Mississippi Delta areas of Louisiana and Mississippi late Sunday, authorities reported today.

The revised count includes ten persons presumed dead in Louisiana and 101 confirmed dead in Mississippi.

2d Earth Day Set

UNITED NATIONS, N.Y., Feb. 26 (UPI).—Secretary-General U Thant signed a proclamation today designating March 21—the first day of spring in the Northern Hemisphere—as Earth Day to be observed with a "silent hour for peace." Observance of Earth Day was instituted in San Francisco last year.

Marine Accused Of Desertion in Vietnam Vanishes

WASHINGTON, Feb. 26 (AP).—Sgt. John M. Sweeney, a young U.S. Marine who voluntarily returned to the United States to face charges of desertion and aiding the enemy while in Vietnam, has vanished again, the Marine Corps reported yesterday.

A Marine spokesman said Sgt. Sweeney, 21, of West Babylon, N.Y., disappeared Feb. 18 while processing out of the Philadelphia Naval Hospital for transfer to the Marine Corps base at Quantico, Va.

Sgt. Sweeney is now listed as absent without leave.

The sergeant returned to this country Aug. 21 from Sweden, where he had turned up after disappearing from his company in February, 1969.

On Nov. 4 the Marine Corps charged him with leaving his unit in the field in Vietnam "with intent to avoid hazardous duty, namely ground combat against the enemy," and remaining "so absent in desertion" until Aug. 31; abandoning his rifle and ammunition "in the presence of the enemy"; aiding the enemy, while a prisoner, "by preparing pro-Communist and anti-American propaganda statements," and aiding the enemy "by making a pro-Communist and anti-American propaganda statement before a press conference" in Stockholm Aug. 24.

De Gaulle and Malraux: A Conversation

(Continued from Page 1)

tiny... I answered the imperative and silent call. I said it, wrote it, proclaimed it. And now, what?

"Frenchmen no longer have any national ambition. They no longer will do anything for France. I amused them with flags."

And now? He answers: "Even the English have no more national ambition."

Mr. Malraux asks when he judged that the contract was broken. Was it the May, 1968, revolt? The 1965 election, when he was forced into a runoff? De Gaulle answers, cryptically: "Much earlier. That's why I took Pompidou."

Mr. Malraux admits that he does not understand the answer, but De Gaulle goes on:

"In May, everything got away from me. I lost hold on my own government. Of course, that all changed when I appealed directly to the people; when I said, 'I dissolve Parliament.'" He adds later: "But the die was cast."

Mr. Malraux asks why he quit office over such a secondary matter—regional power. Was it the absurdity of it? "Because of the absurdity of it," repeats De Gaulle. After a moment's silence he goes on:

"What you and I wanted—why not give it its real name—grandeur—is finished now. Oh, France maybe can still astonish the world, but that will be later. (Now) France is going to negotiate, with the Americans, and even with the Russians. With the Germans and the Communists. It's started. It might last. It's without great importance..."

Later, explaining this, he says he expects his retirement will bring an inevitable return to parliamentary rule, and what he always held to be its weaknesses. "When I am dead you will see the rebirth of the (political) parties and their unfortunate governments..."

Later, Mr. Malraux tells De Gaulle that no statesman could be called his predecessor. Not even Clemenceau. De Gaulle replies. "You know, basically my only international rival is Tintin (a comic book hero). We are the little ones who can't be had by the big boys. People just don't realize it because of my size."

As lunch is about to be served, the talk turns to Napoleon. Mr. Malraux observes that there is Napoleon "the colossus," but also the man "with a very big spirit and a rather small soul."

De Gaulle is not so sure. "Take care about the soul," he answers. "He didn't have long enough."

War Hero Who Didn't Know It

BUFFALO, N.Y., Feb. 26 (AP).—A World War II veteran got more than he expected recently when he asked the Army if he could have a replacement for a lost Purple Heart medal.

William K. Colombo, 48, of Rochester said the Army sent him another Purple Heart and a Bronze Star with a bronze "V" for "victory," an Oak Leaf Cluster, a Combat Infantry Badge, a Good Conduct Medal and a World War II Victory Badge.

The Army said Mr. Colombo had the medals coming to him but never received them.

Abductors Free Boy in Munich After $52,800 Ransom Is Paid

MUNICH, Feb. 26 (Reuters).—Seven-year-old Michael Luhmer was released by his kidnappers tonight, the office of Till Burger, a Munich lawyer, said tonight.

A spokesman for the lawyer said that the child was reunited at the Munich police station with his mother, who flew here from Bonn a few hours earlier.

He said that Michael, who was kidnapped during a carnival near Bonn last Monday and held for ransom of $52,800, was in good condition but had a slight cold.

Mr. Burger met the kidnappers this morning and turned the ransom in cash drawn from his ing. The kidnappers told him that the boy would be freed tonight.

Mr. Burger obtained the child's release by getting a bank loan for the ransom money.

The kidnappers said that they had intended to abduct the son of the American consul in Bonn, the lawyer said.

The consul is Norbert Krieg, who lives in Bad Godesberg, a suburb of Bonn not far from the scene of the kidnapping.

Mr. Burger said that, when he handed over the ransom money, the men claimed to be of "nationalist and socialist" political convictions. He said that it was his impression they were from rightist groups.

But the lawyer added that it was possible the political overtones might have been part of a cover-up.

The breakthrough in the kidnaping came after previous attempts by other lawyer intermediaries to pay the ransom had failed.

When the ransom for Michael, the son of a bus driver, was first demanded, the state of North Rhine-Westphalia put the money in a Munich bank and later placed it at the disposal of another Munich lawyer, Horst-Dieter Poetschke.

The ransom transfer ran into difficulties early this morning when the abductors felt that they were being watched at the transfer point in a Munich street.

At least four West German lawyers have been involved in trying to gain Michael's release which, at one point, was expected to take place in Belgium.

Mr. Burger defended three Arab guerrillas who attacked an Israeli El Al airliner at Munich airport a year ago. The guerrillas were later released without trial in an exchange of hostages.

2d Doctor Says Calley Knew Of His Actions

FT. BENNING, Ga., Feb. 2 (AP).—A psychiatrist heading a three-member Army sanity board said today that Lt. William L Calley jr. was fully able to think out his actions during his company's assault on My Lai.

Col. Arnold W. Johnson, of Walter Reed Hospital in Washington, was the last of the board to testify for the prosecution.

Another board member, Maj. Henry E. Edwards, gave similar testimony yesterday. After today's session, the trial went into recess until next Wednesday.

Lt. Calley is accused of premeditated murder of 102 Vietnamese civilians in My Lai in March, 1968.

Col. Johnson said the board had been asked to find "any condition or pattern, or symptoms . . . that would lead us to feel he had a diseased defect or derangement" on that day. "We were unable to do so," he said.

McCartney Again Says Beatles Are Finished as Unit

LONDON, Feb. 26 (UPI).—Paul McCartney said today the Beatles *stopped thinking of themselves as* a group when they stopped making records together.

Mr. McCartney also repeated charges that Allen Klein, the Beatles' American manager, "sowed discord" among the group. He said Mr. Klein blamed John Lennon's wife, Japanese artist Yoko Ono, for at least one quarrel among themselves.

"We don't think of ourselves as Beatles now," Mr. McCartney said in written evidence at his continuing British High Court fight to dissolve the Beatles' partnership and appoint a receiver for their assets. The hearing will continue Monday with the final submission of evidence.

He also rejected a statement by John Lennon that, "We always thought of ourselves as Beatles, whether we recorded singly or in twos or threes. One has only to look at recent recordings by John or George (Harrison) to see that neither thinks of himself as a Beatle," Mr. McCartney said.

Cosmos-398 Orbited

MOSCOW, Feb. 26 (AP).—The Soviet Union launched today another unmanned satellite in its secret Cosmos program, No. 398 in the series of launchings that began March 16, 1962.

Today's launching was the second in the past two days and the fifth this month.

130th Starfighter Lost

BONN, Feb. 26 (AP).—The West German Air Force today lost its 130th F-104G Starfighter jet in a crash in Sardinia, the Defense Ministry announced today. The pilot parachuted to safety.

Mitchell in Paris

.S., France Sign Pact o Fight Drug Traffic

By John L. Hess

ELS, Feb. 26 (NYT).—France the United States signed an ment today sealing their co- tion in the police war against rug traffic. Attorney General N. Mitchell declared that if countries joined in, "then yranny of narcotics can be ded and overthrown."

ncidentally, the French police nced a record seizure on esday of 358 kilograms t 790 pounds) of morphine the intermediate stage be- opium and heroin, on a boat ort St. Louis, near Mar-

authorities also seized a sh ore freighter, the Divan li, and arrested its second another Turk and two hmen. The morphine base resumed to have been dump- m the freighter. It was said a fisherman had drawn up ack of it in his net and had the alert.

haul was described by John oll, director of the United Bureau of Narcotics, as a blow to the most important of the drug traffic: the ction of opium in Turkey, its ntration into morphine base Middle East, its transforma- into heroin in clandestine tories in the south of France and final shipment to the United States.

He said in an interview that American and allied authorities had seized three-quarters of a ton of morphine base in the last year, equivalent to the same amount of heroin, or perhaps as much as one-fifth of the estimated illegal rate of consumption in the United States. As for Wednesday's seizure, he added, "There's been nothing like it."

The "protocol" signed by Mr. Mitchell and Interior Minister Raymond Marcellin made formal an agreement negotiated in Washington in late 1969. It confirmed the long-standing establishment of Bureau of Narcotics offices in Paris and Marseilles and provided for the opening of a similar French office in New York and the regular exchange of information and techniques.

At a news conference, the attorney general said the police effort on both sides of the ocean had brought "great progress." He said there had been "a material reduction" in illicit production of opium in Turkey, and many arrests in France, where the laboratories had been "considerably reduced or driven out of the country."

"Yesterday we rounded up the last of a very large system that handled 50 percent of the hard drugs in New York and 70 percent in Chicago," Mr. Mitchell said. Wiretapping, he added, had been a great help.

As a result, he said, he thought the supply of heroin in the United States had been cut and the price must be rising.

Mr. Ingersoll was more reserved. "I am not so unrealistic as to believe we are going to eliminate the drug traffic in our country," he said, "but I think we will catch up with it in the next couple of years and start moving ahead."

Mr. Ingersoll said about half of 2,000 persons regarded as "principal purveyors" of hard drugs in the United States had been "immobilized" by arrests. But, he added, "new elements have come into the wholesale picture, establishing their own sources of supply."

Figure Discounted

He and Mr. Mitchell rejected as "guesstimate" the frequently published statement that 80 percent of the illicit heroin in the United States was processed in France from Turkish opium—"The old bureau was great for throwing out figures," Mr. Ingersoll commented. But he said he thought a major portion of the heroin in the eastern United States did come by this route.

Asked why no laboratories had been raided in the last 14 months—that is, since the French narcotics force had been sharply increased—although 13 had been closed in the preceding decade, Mr. Marcellin replied: "When we seize morphine base, that stops the laboratories from working."

Mr. Ingersoll explained that the laboratories were highly portable and easily concealed, and that new policemen needed training. Now, he said, "they seem as good as we are." Speaking of the present retail supply and price situation in the United States, he concluded:

"I can't say there has been any significant change. We can expect to see the effects after the stocks now in the United States have been depleted."

.S. Draftee lijacks Jet o Vancouver

NCOUVER, B. C., Feb. 26 .—A U.S. Army draftee en from California to Washing- or basic training hijacked a rn Airlines jet last night and l it to fly to Canada.

Opposition Grows in Congress

vits Says Nixon Is Headed r a Fall Over Vietnam Policy

By John W. Finney

HINGTON, Feb. 26 (NYT). long-smoldering congres- criticism of the administra- Vietnam policy has showed of flaring up again with a ican senator warning that nt Nixon may become a m president and a group ate Democrats proposing a sional injunction against asion of North Vietnam.

n unusual public warning Republican to give to the House, Sen. Jacob K. Javits York said yesterday that ixon's political future was ave danger" if he did not n his Vietnamization pro- for a policy of complete awal from Vietnam.

same day, with the support Democratic senators, includ- ost of the potential presi- candidates, Sen. Walter F. e, D., Minn., introduced lon that would bar Ameri- rces from supporting an n of North Vietnam without and explicit" congressional zation. The principal co- of the bill was Sen. Wil- Saxbe of Ohio, a Republi- oderate who has sought to in amiable relations with ite House.

oth Democrats and Republi- Capitol Hill; such proposals atements were indicative of ng congressional restlessness e administration's Vietnam

months the criticism had nuted by the administra- repeated contention that it inding down the war," as ed by the progressive with- of American troops. But is acknowledged by Republi- itical leaders that this argu- s losing its political effec- s as the critics raise the n of when the "winding will be completed.

changing political climate eknowledged, for example, Robert J. Dole of Kansas, the Republican National Committee chairman, who observed to a reporter that the Democrats were "putting the screws to us" on troop withdrawal.

The turning point appears to have come in the last week, first with Mr. Nixon's statement at a news conference refusing to rule out a South Vietnamese invasion of North Vietnam and then with indications that the South Vietnamese operation in Laos was running into difficulties.

This combination of events was enough to prompt Sen. Saxbe to sign on as the principal Republican co-sponsor when approached by Sen. Mondale on his bill. When asked to explain his co-sponsorship of the bill, Sen. Saxbe said: "In all the briefings by the administration there has not been one word that if things didn't go well in Laos, we would not go into North Vietnam."

In a statement accompanying introduction of his bill, Sen. Mondale said, "The Congress faces a crisis of responsibility."

"It is now clear," he said, "that the President is widening this war, rather than ending it. If it is to be ended; if limits are to be firmly set, Congress must do so."

In a speech prepared for delivery yesterday before the Mid-America World Trade Conference in Chicago, Sen. Javits offered the view that "time is closing in on the administration with respect to ending the Vietnam war." The senator predicted that if the administration did not adopt a national policy of withdrawing all troops by mid-1972, then "there is a good chance that the Congress will act to establish it by law."

"I feel the time has come for a Republican senator to post warnings that the ship of state may be headed for the same rocks which broke up and sank the presidency of President Johnson," Sen. Javits said.

United Press International.

EIGHTY-FIVE SATURDAY—A birthday portrait of Supreme Court Justice Hugo L. Black, third oldest justice to serve on the high court. Only Justices Oliver Wendell Holmes and Roger Taney were older. In August, Mr. Black will have served 34 years.

As Pressure Builds on Him to Run

Lindsay Insists He Foresees Slim Chance of a Nomination

By David S. Broder

NEW YORK, Feb. 26 (WP).—In the face of rising pressure for him to enter the presidential race, Mayor John V. Lindsay insists that it is a practical impossibility for him to be nominated by either major party next year.

The mayor's personal skepticism about his prospects for success is the major reason he is considered unlikely to make the widely rumored switch of registration from Republican to Democrat in the immediate future.

Nonetheless, most of Mr. Lindsay's friend and associates consider it almost inevitable that he will play a major role in the effort to deny President Nixon a second term. And a backstage struggle is being waged almost daily to persuade him to play his part as a Republican, a Democrat or an independent.

Wednesday, two insurgent Republican congressmen, Rep. Paul N. McCloskey of California and Rep. Donald W. Riegle Jr. of Michigan, called on Mayor Lindsay to urge him to remain in the Republican party and, if necessary, to lead the fight to deny Mr. Nixon renomination.

Yesterday, Mr. Lindsay met in Washington with leaders of the Urban Coalition and Common Cause, many of whom have been trying to persuade him that the time is right for an independent presidential candidacy uniting liberals of both parties.

Hosting UAW Leader

And today, while he is playing host on his television show to United Auto Workers president Leonard Woodcock, a power in the Democratic party, and speaking to the Eleanor Roosevelt Peace Award dinner of SANE, one of the many Democrats on his staff, Mrs. Ronnie Eldridge, has invited Liberal Democratic leaders from around the country to discuss Mr. Lindsay's possible role in that party.

In the face of these conflicting pressures, Mr. Lindsay is taking the position—both privately and publicly—that there is nothing viable for him in 1972 presidential politics.

Whether this argument is merely a tactic to preserve his options for the time being or a firm conviction on his part is not clear. But Mr. Lindsay contends that:

- The progressive elements in the Republican party have lost so much strength in the past few years that a candidate of his stripe has virtually no constituency left there.
- An independent candidacy, by splitting off support from the Democratic nominee, would effectively guarantee Mr. Nixon's re-election.
- The Democrats, with a large field of long-time party leaders contending for the nomination, are not likely to let it go to a newcomer like him. And a switch of registration, which many of his staff members are urging, would leave him open to charges of cynical self-seeking.

When all these negatives are combined with the intensive pressures of the current city budget-making, labor negotiations and administrative problems, the conclusion of most of those involved is that Mr. Lindsay is unlikely to chart any new political moves on the national level during the next few months.

Specifically, they discount reports that he will switch registration this month or next in order to meet the deadline for qualifying as a Democrat in some of 1972's early presidential primaries.

Interviews with the mayor and members of his staff leave the impression that when Mr. Lindsay reaches the point of decision, his likeliest option will be a try for the Democratic nomination.

Record Flight Planned for Next Apollo

CAPE KENNEDY, Feb. 26 (UPI).—The Apollo-15 astronauts are scheduled to set out for the moon July 26, spend a record six days on or around it and return to earth 12 days after launch.

The two surface explorers, Col. David R. Scott and Lt. Col. James B. Irwin, will stay on the moon 67 hours—twice the time logged by Apollo-14's pilots—and spend a record 20 hours each walking and driving an electric car there.

Col. Scott, Col. Irwin and Maj. Alfred M. Worden originally were scheduled for launch July 25 on an 11-day mission, but the space agency said Wednesday that plans have been revised and are subject to more changes.

The launch now is scheduled for 1334 GMT Monday, July 26, with the Pacific Ocean splashdown coming 12 days and 8 hours later, or about 2130 GMT Saturday, Aug. 7.

According to the preliminary planning, Apollo-15 will swing into lunar orbit at 2008 GMT Thursday, July 29.

Cols. Scott and Irwin tentatively are set to land at 2214 GMT Friday, July 30, between the base of the Apennine Mountains and a gorge called Hadley Rille.

Maj. Worden will remain in lunar orbit surveying the moon with a new set of cameras and other sensors. He later will walk in space to retrieve film packs from the command ship's service craft.

Cols. Scott and Irwin will conduct three surface excursions. The first two will last seven hours each and the third six hours. The moonwalk schedule is not yet firm, but planners expect to start the first excursion about 1400 GMT Saturday, July 31. The second is expected around 1139 GMT the next day with the third starting about 0830 GMT Monday, Aug. 2.

Accident Exposes Scientist to Dust Of Moon Samples

HOUSTON, Feb. 26 (Reuters).—A scientist was accidentally exposed to moon dust from the Apollo-14 samples yesterday and ordered into quarantine.

The space agency announced that virologist Nancy J. Klein was stuck with a needle while working with the samples and a protective glove she was wearing was punctured.

The scientist worked for Brown, Root and Northrop, the company that provides support for the space agency scientists in the lunar receiving laboratory where samples and crew alike are kept in close quarantine to prevent contamination by any possible moon germs.

Mrs. Klein, 22, will probably have to spend at least three days locked up in the mobile quarantine facility which astronauts Alan Shepard, Edgar Mitchell and Stuart Roosa were confined to after splashdown from their moon flight on Feb. 10.

Minichiello Stricken

ROME, Feb. 26 (AP).—An appeals trial for convicted airplane hijacker Raphael Minichiello, set to open today, has been postponed. Minichiello was reported by his lawyer to be suffering from tonsillitis and appendicitis in prison. Lawyer Edmund Zappacosta said he received a telegram from the prison in Pescara, east of Rome, where the Italian-born U.S. marine is behind bars, saying that Minichiello was "immovable" and under a doctor's care.

Reagan to Nixon: Give U.S. Films 20 Pct. Tax Break

SACRAMENTO, Calif., Feb. 26 (WP).—Gov. Ronald Reagan has urged President Nixon to join in support of a plan "to alleviate massive unemployment caused by a serious decline in the production of motion pictures in the United States."

In a letter to the President, the governor disclosed his support of a labor-management request for a 20 percent tax exemption on gross income from the sale of films made in this country.

As the result of a Feb. 3 meeting with film and TV management and two union leaders from Hollywood, Gov. Reagan said he agreed to join their drive for special tax treatment.

The governor wrote the President: "In the past three years, foreign production of American films has increased by at least 64 percent. More than half of our films are being produced abroad." It is possible for a U.S. film-maker to get subsidies amounting to 80 percent of his production costs by filming in foreign countries, Gov. Reagan said.

He warned, however, against simply barring the import of "runaway" films to the United States because it "could invite retaliation and have disastrous effects on the motion picture industry."

53 Operatives in Crowd of 119

Ex-Agent Describes 'Overkill' In Military Spying Inside U.S.

By Michael Getler

WASHINGTON, Feb. 26 (WP).—A classic case of military intelligence overkill—in which 119 demonstrators outside a gate at Fort Carson, Colo., included 53 undercover agents from all services plus a sprinkling of newsmen—was unfolded yesterday before Sen. Sam J. Ervin's subcommittee on constitutional rights.

Above the crowd, the committee was told by former agent Laurence F. Lane, now a legislative aide to Rep. Robert H. Giaimo, D., Conn., at least six helicopters hovered to watch and take pictures.

But the choppers made so much noise that the agents on the ground couldn't tape record the speeches the anti-war agitators were making.

Mr. Lane, who served for a year and a half in the G2 (intelligence) section of the 5th Infantry Division at Fort Carson, told the committee that the incident outside the gate said a lot about how military spying got out of hand.

No Military Conspiracy

Rather than any "planned national military conspiracy," Mr. Lane said, it was the action of individual commanders that pushed the military well beyond its authorized intelligence-gathering role.

Rivalry among neighboring commanders, mistrust of information developed by other sources, spies from one unit trailing those of another, the personal view of each commander about snooping on civilians and the constant demand for quantity rather than quality all played a part, he said.

Intelligence gathered by agents, whether reliable or not, Mr. Lane said, was forwarded to Army intelligence headquarters at Fort Holabird, Md., where it went into the computers and then out again to other commands "as substantiated facts."

The information could be damaging not only to those spied upon, he said, but to any Army troops that eventually had to rely on it.

Mr. Lane said that one dossier sent from Holabird to Fort Carson on the comedian and civil rights activist Dick Gregory "was so tainted it was unusable. I was amazed . . . It was completely subjective, based on unsubstantiated information and unreliable sources with no attempt to be objective."

Church Unit Infiltrated

Another former Fort Carson agent, Oliver A. Pierce, told of being ordered to infiltrate a Young Adult party meeting, sponsored by the Pike's Peak Council of Churches, to see if its leader was influencing local GIs. After six months, Mr. Pierce said, he reported no influence but was kept on the job.

Sen. Ervin also revealed other instances of infiltration of church groups in several letters, which, he said, have come from other agents and individuals since he announced his hearings.

One report said that the Navy had the Episcopal bishop of California under surveillance for his anti-war activities. Another indicated that the Navy was still involved in domestic surveillance as late as last December, well beyond a Pentagon-ordered cut-off.

Sen. Ervin also said that he received information that the Navy's investigative arm had listed the Institute for Policy Studies, a Washington think tank, as suspicious because they had "known leftists working for them" and were cooperating with "known leftist black groups."

Watched Since 1960

A state legislator from Texas, Curtis M. Graves, testified that he was told by a former investigator that the Army had been watching him ever since he took part in desegregation sit-ins in Houston in 1960.

Rep. Graves spoke of growing fears among his friends, who are afraid to call him lest they wind up in a file, and said that his wife had to be hospitalized after learning about the surveillance.

Pentagon officials are to appear before Sen. Ervin's committee on Tuesday.

Sen. Birch Bayh, D., Ind., introduced legislation yesterday requiring any government agency maintaining records on individuals to notify them that the records exist and to permit their inspection. A similar bill has been introduced in the House by Rep. Edward I. Koch, D., N.Y.

30 Youths Seized On Drug Charges Near Kansas U.

LAWRENCE, Kan., Feb. 26 (AP).—Kansas Attorney General Vern Miller led a force of more than 150 law enforcement officers into this college town early today and within two hours arrested 30 young people on drug charges.

More youths were known to have been taken into custody for booking at the Douglas County courthouse. They were charged with the sale of LSD, cocaine, hashish and marijuana.

Most of the arrests were made in rooming houses or residences just off the campus of the University of Kansas. Lawrence is a city of 45,000 population, including 18,000 university students.

Mr. Miller, elected attorney general last fall with a pledge that he would "leap into the hippie-drug commune of Lawrence with both feet," waited six weeks after taking office to make his first raid on the community.

N.Y. City College: 48% Use Pot, 8% on Heroin

NEW YORK, Feb. 26 (AP). Nearly half of City College's 20,000 students use marijuana and more than 8 percent use heroin, but use of LSD and other "hard hallucinogens" is dropping off, a study commission reports.

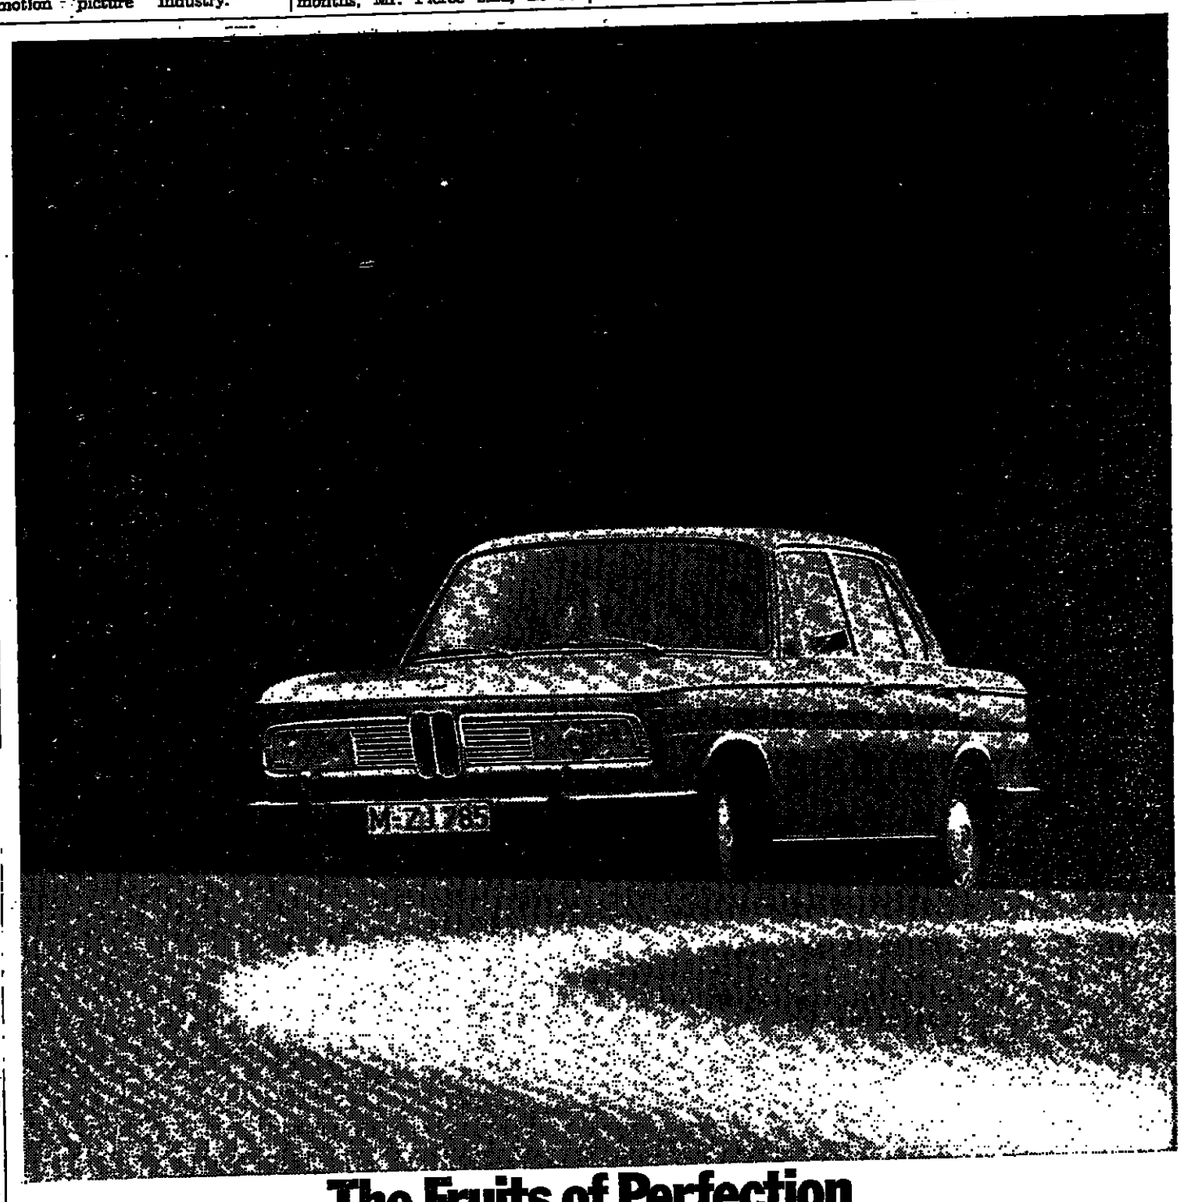

In 1969, 4.4 percent of the students used heroin while 43 percent were marijuana users, as compared with 1970 figures of 8.1 percent and 48 percent respectively, the commission said.

The Fruits of Perfection

When the BMW 2000 was introduced the motoring press wrote: "...the biggest temptation is to use only superlatives for describing this car..." or "...this is the soul of a sports car fitted into a luxury body..." When you drive the 71 model of the BMW 2000 you will have nothing to add to what the experts say. That is why BMW will keep on making this car in 1972. Without any changes. In 1971 BMW is producing the BMW 2000 in three versions: with a 1.8 litre 102 bhp engine, a 2 litre 113 bhp engine, and as 2000 tii with a 2 litre engine with injection and 147 bhp.

For sheer driving pleasure — BMW

New Message, Old Doctrines

President Nixon's second State of the World message is essentially a restatement and updating of last year's document. It does not appear at first reading to contain any new thoughts or proposals. Indeed, what is most striking is the manner in which the emerging Nixon Doctrine increasingly resembles old United States policies of the past two decades.

This is particularly noticeable in the lengthy passages in which the President attempts to defend his policies in Southeast Asia. While the mode of American intervention has been changed in order to assuage domestic criticism, the President seems to be pursuing the policy of containment in Asia first laid down by John Foster Dulles. He reiterates his determination to honor American commitments throughout the area —commitments which predate the changed conditions to which he says elsewhere American policy must respond—and he appears ominously to be extending those commitments to Cambodia and Laos.

Although the President continues to call for increasing self-sufficiency on the part of America's Asian allies, individually and in concert, he indicates that the transfer of defense responsibilities to local forces will be a long and slow process. It is obvious that the Nixon Doctrine is running into serious trouble in the face of Asian realities.

In Europe, too, Mr. Nixon reiterates old policy in such expressions as "today's new strategic equation," which turns out to be simply a restatement of the McNamara policy of graduated deterrence and response. He does wisely allow for Chancellor Willy Brandt's Ostpolitik and for initiatives by others when he says: "Today, our Western European allies are properly anxious to make their own contribution to East-West negotiations. They will increasingly assert their own judgment and interest in doing so."

While holding out hope for new understandings with the Soviet Union, the President generally adopts a tough line vis-a-vis the Kremlin. His expressed determination to persist with American ABM and offensive missile development lessens the likelihood of a fresh American initiative to break the disarmament deadlock when the SALT talks resume in Vienna next month.

There were echoes in the President's message of recent hints of a changing policy toward Peking. He said the United States would continue to oppose Communist China's efforts to unseat Nationalist China at the United Nations—which, of course, is not the same as opposing admission for Peking. But United States actions in Indochina are likely to speak louder than any presidential words of conciliation.

On the positive side, the President's firm statement on liberalizing trade offers hope that the administration will provide stronger leadership this year in the trade battle in Congress. There are also welcome signs of a more hospitable attitude toward trade with the Communist world.

Mr. Nixon takes justifiable pride in his administration's vigorous efforts to promote a cease-fire and negotiations in the Middle East, which he correctly labeled as the most dangerous current international crisis area. His careful restatement of the American position should give impetus to progress in the delicate negotiations now taking place at the United Nations.

In the closing remarks of his radio address, summarizing the message, Mr. Nixon said: "But history has taught us that the old diplomacy of imposing peace by the fiat of great power simply does not work." Unfortunately the presidential message—especially that portion dealing with Southeast Asia—strongly suggests that President Nixon has not abandoned the old diplomacy.

THE NEW YORK TIMES.

White Elephant With Wings

In November, 1964, the Concorde, the Anglo-French supersonic transport plane, was in about the same stage of early development as the SST is in the United States today. In Britain, the newly elected Labor government then undertook an urgent review of this expensive project.

In explaining the need for reconsideration, Roy Jenkins, then minister of aviation, told the House of Commons: "By 1971 we might easily find ourselves in a position in which, without any hope of return, we had spent many hundreds of millions, when we had to subsidise our own airline to take the planes produced, when we had, in consequence, to place still further burdens on the exchequer, and when the resultant argument between the treasury and the airlines might gravely damage the prospects of the plane in third markets. Does not that at least add up to a case for an economic review?"

It is now 1971 and Mr. Jenkins's grim prophecy has come true. In part because it allowed diplomatic considerations to override hardheaded economic reasoning, the Labor government let the Concorde go ahead. At that time, the prospective cost of the project had already climbed to $800 million, nearly double the original estimate. It has since tripled to a probable $2.4 billion.

Originally, it had been hoped that each plane could be sold for $10 million with the British and French governments making a profit of about, $2 million per plane. Now each plane will have to sell for $30 million, and any thought of a profit to the two governments has long since vanished.

In Britain and France, the principal airlines are government-owned and subsidized. BOAC and Air France are now reportedly telling their respective governments that they see almost no likelihood of operating the Concorde profitably, even with a 30 percent surcharge added to each ticket. The subsonic jumbo jet which can carry three times as many passengers is a decisively more efficient plane for transatlantic travel.

In short, as Mr. Jenkins foresaw, the British treasury will have to "subsidize our own airline to take the planes produced."

Such is the economic history of this white elephant with wings. It is tragic that Britain, already economically hard-pressed, has to bear this useless burden. Why should any rational member of Congress vote to repeat the British mistake on a grander scale?

THE NEW YORK TIMES.

International Opinion

Nixon's Address

The main impression made by a reading of President Nixon's "state of the world" message—a document permeated by a consciousness of American power—is that the United States foreign policy developed 25 years ago is being continued in its essentials. This is only to be expected: no major power in history has ever voluntarily abdicated. Nixon's modifications should not be interpreted as a turning away from the larger world, but rather as "reculer pour mieux sauter," as measures designed to secure the continuity of the course laid down under Truman.

—From Neue Zuercher Zeitung (Zurich).

* * *

One must welcome President Nixon's remarks that underscore that any possible agreement for the demarcation of final boundaries between Israel and the Arab states must be concluded within the context of a peace treaty between the parties, but his reassertion of the basic principles of the Rogers plan which allow but for insignificant territorial adjustments strengthens the position of Israel's enemies and, in turn, that of the Soviet Union.

—From Ha'aretz (Tel Aviv).

President Nixon's second annual State of the World report to Congress differs appreciably from his message of last year. In 1970, the President sought above all to present a "low profile" of his foreign policy to the American people and to the world. He said, in substance, that the United States could not act as the world's policeman, that America should temper its ambitions, lower the pitch of its foreign policy, rely more on its allies, and renounce confrontations with the U.S.S.R. forever, in order to enter an era of negotiation.

Without denying any of these earlier declarations, Mr. Nixon clearly has modified them. This year's message contains a series of warnings aimed both at the Soviet Union and North Vietnam. The harsh tone he uses to describe the situation in Indochina is particularly striking. Whereas last year Mr. Nixon declared his support for a negotiated settlement, this speech shows no trace of conciliation. The President even accuses North Vietnam of "widening" the war, despite the fact that the "Cambodian sanctuaries," which were invaded last year, and the Ho Chi Minh Trail have existed for many years. But in the meantime Mr. Nixon has changed the rules of the game.

—From Le Monde (Paris).

Seventy-Five Years Ago

February 27, 1896

PARIS—Wheelmen in New York have been recently greatly agitated over a proposal by the Board of Aldermen that all bicycles should be equipped with brakes, the idea being to meet that common excuse of the cyclist who has met with an accident: that he could not stop himself in time. Now, evidently the Alderman of Gotham are not cyclists, or they would know that the lesson of practical experience is that a brake is, to the skillful wheelman, by no means a necessity.

Fifty Years Ago

February 27, 1921

DUBLIN—Six Irishmen are to face a firing squad at the Cork barracks tomorrow morning, five for preparing an ambush at Dripsley, County Cork, and the sixth, John Allen, of Tipperary, for being in possession of a revolver and a book entitled "Night Fighting." In all the Roman Catholic Churches in Cork and Limerick today prayers were offered for "grace and a happy death" for the six men.

'I Wish I Was Down There Wishing I Was Up Here.'

Muskie's Road to the Nomination

By James Reston

WASHINGTON.—Big Ed Muskie discusses his presidential prospects these days like a detached philosopher analyzing some unlikely historical character. He is remarkably objective, candid, and even self-critical, still visibly surprised to find himself leading the Democratic race, but obviously determined to make the most of his chances.

He is beginning to plan his campaign now, instead of merely accepting speaking engagements at random. He is dissatisfied with his speeches—thinks they've been too casual, sometimes "pretty awful." So he is looking for help in this field, recruiting a news staff, and planning a trip to Africa in the spring, and to India, Indonesia, Malaysia, and Vietnam later in the year, if he can find time.

Sargent Shriver, who helped recruit President John F. Kennedy's staff in late 1959, and Norman Cousins, editor of the Saturday Review, have volunteered their help. Several fund raisers from the Kennedy camp have come over with Sen. Edward Kennedy's approval, and while Sen. Muskie wonders where the money will come from for the long primary election contests, he thinks he'll have enough to get through the present year.

So far he has not been asking for commitments from influential Democrats, but the response from the Democratic governors who have been in Washington recently has been "surprisingly promising." In fact, most of the things that have been happening to him lately seem to surprise him.

Even after his unsuccessful campaign for the vice-presidency in 1968, he assumed the Democratic presidential nomination of 1972 would go to Edward Kennedy, and that this would rule him out as a New Englander for a place on the ticket. It was not until the Kennedy accident at Chappaquiddick that he began to think he might have a chance.

This is rather typical of Muskie. Things always seem to be coming to him just when he thinks they are out of the question. Though Hubert Humphrey had talked to him about being the vice-presidential candidate in 1968, he didn't quite believe a man from so small a state as Maine would be chosen until it happened.

Trust on Sight

His strength then and now is that people seem to trust him on sight. Part of this may be because his character was formed before he even thought of making politics a career.

Even after he had been governor of his state for four years, he intended to retire from politics, and it was not until he won a seat in the Senate in 1958, when he was 44, that he decided what he wanted to do with his life.

Even then, he says, he felt "uncertain" about how to exercise power in the Senate, and finally decided to settle in and work his way slowly through the committees.

It may be that this is why, at 57, he has acquired his present confidence. For he has somehow emerged, not by contriving a personality and scrambling for power, but merely by doing what came naturally and finding that somehow his colleagues came to him.

Things, of course, will change now. He can no longer prevail by working away rather obscurely. Now he will have to plan and choose and define on the scale of the nation and even the world. He is no longer merely "Big Ed," the pleasant, industrious, competent senator from Maine, but a man who may be president, and whose every act and speech will be tested against the awesome responsibility.

Already the pressures are on him from the other candidates or their supporters who are suggesting he is too cautious or too short-tempered, an odd combination, or too conservative or too liberal or too vague on the great issues of the future.

He doesn't complain about this. He accepts the fact that he will have to speak out, but he is going to pick his staff and pick his time and pick his issues very carefully. Only as these decisions unfold will it be possible to estimate his chances, but the guess here is that it would not be wise to underestimate him.

For Big Ed is not the sort of man you'd hand your hat to by mistake. He hasn't struggled up through the law and Democratic politics in a Republican state, and the Senate and the last presidential campaign for nothing.

His experience is primarily on the home front—particularly in the fields of state and intergovernmental relations, environment conservation and finance—and he will have to overcome the charge that he is not well grounded in foreign and defense affairs.

But, withal, he is a calm and even commanding figure, with a superb voice, a philosophic turn of mind, and the look of integrity in his eye, and after the last few years, this might strike a lot of people as a pleasant change.

A Fault in Reality

By Anthony Lewis

LONDON.—A year ago, a British expert on American foreign policy was doing an appraisal of President Nixon's first message on the State of the World. He felt it necessary to begin with a comment on the state of America.

The American people, he said, had come to know that "they had won the cold war and were losing the war in the cities. They realized that their interests were in Harlem and Watts and Chicago and only to a limited extent in Vietnam. They realized that the only people able to destroy American society were the Americans themselves.

"They began to comprehend that the affluent society was not concerned much with the individual, was not necessarily just or moral, and was not even very agreeable.

"The young realized it first, or at least they were the first to say that the emperor's clothes were tawdry..."

It was against that background that the British analyst tried to explain the Nixon Doctrine. By that self-consciously named attitude, he suggested the President was trying to reassure his own people that the United States was going to be less adventurous abroad, less crusading—and more concerned with itself.

Many Americans, including some of the students most convinced that our first concern should be our own society, evidently were reassured. Even more than the message on the State of the World, the steady rundown of American troops in Vietnam seemed to show an understanding on Nixon's part of the new realities of American interest and power.

Then Cambodia

Then came the invasion of Cambodia. Can anyone really be surprised, in retrospect, at the ferocity of the reaction, the sense of betrayal? And especially among the students.

Experts read the President's intentions more carefully; the British analyst said at the time that Nixon would not reduce American commitments willingly and would not eschew adventures. But the students, less experienced and more self-deluding, may really have expected a new attitude in their government.

American students have had some severe shocks in the last few years to their idealism and their hopes for social change.

They thought for a while in 1968 that they could alter their country's course by politics, and they thought they had. But the end result was a choice between Richard Nixon and Hubert Humphrey. Then, after Cambodia, they were advised to work through the political system again. They did, and found a campaign corrupted by money and demagoguery.

"A sad scorn," a monumental scorn" was Kingman Brewster's reading of the student mood toward the political process after the 1970 experience. Another event, just now, has underlined the realistic basis for that attitude.

Campaign Funds

The use of money in last year's campaign became a national scandal. European friends of the United States were bewildered at the reports of men like Nelson Rockefeller spending millions to buy their way into office. When Congress passed legislation to deal with the heart of the problem, political spending on television, President Nixon vetoed it. But the Senate Republican leader, Hugh Scott, did promise to bring in a more comprehensive bill in the new Congress.

Now we have Senator Scott's bill. It turns out to remove all ceilings on any candidate's election expenditure. Its reform consists largely of requirements for disclosure and limitation of individual contributions. It does nothing about the disgrace of selling politicians like cereal on television. Scott is the man who should now make the speeches to students telling them not to be cynical about politics and politicians.

The students tried protest, too. But that turned out to lead, too often, to manipulation by the extreme few, to anti-intellectualism, to irrational violence.

Reports from the United States now speak of a new calm on campus, a welcome return to the idea of universities as places for quiet thought and reflection. But it might be a mistake, in two senses, to take too much satisfaction from the apparent change of mood.

There is the danger, first, of mistaking a feeling of helpless sadness for contentment with things as they are. Quiet campuses should not encourage more rash adventures in Indochina. For that would risk turning the students back to hatred and anarchy.

But the greater danger is that the students will really cease to care. They have been annoying and foolish and destructive at times, but they have shown ideals and commitment largely lacking, for example, at English universities. And they have told us important things about American society. The rest of us need to have American students go on believing what the writing on the wall says: "Do not adjust your mind. There is a fault in reality."

Nixon's Statement On Foreign Policy

By Murrey Marder

WASHINGTON.—President Nixon has unveiled the other, sterner, side of the doctrine that bears his name, revealing a determined, activist, peace-through-strength outlook on the world.

His second State of the World message not only counter-balances, but overshadows the first, which emphasized cutting back to bearable size the U.S. involvement overseas. This time the President warns of the opposite danger. He seeks to brace his nation for longterm struggle and testing, in Indochina especially, but also throughout the world, rejecting "indiscriminate retreat," "heedless withdrawal," or "abdication of leadership" even while reducing the American posture abroad.

Centering his new emphasis on the dangers of turning away from world responsibilities, the President said Thursday that the current "grave risk" is "underinvolvement" after "a long and unpopular war..."

"Our foreign policy today," he said, "steers a steady course between the past danger of overinvolvement and the new temptation of underinvolvement."

What the President laid down Thursday, in some 60,000 words, was in a large sense a foundation for the next struggle for the presidency, in 1972.

The Struggle

By coincidence, this week the outlines of that struggle became visible on both sides.

The resolution approved Tuesday by the Senate Democrats, calling for a total U.S. pullout from Indochina by the end of 1972, is a direct challenge to many of the most fundamental premises in President Nixon's newest and most detailed formulation of his foreign policy objectives.

The President's Indochina policy, while avoiding all dates, heads in virtually the opposite direction of the Senate Democratic majority's resolution.

In blunter language than he has ever used before, the President has dropped all his 1969-1970 talk about when the war will end. If the negotiating path remains blocked, said the President—and he held out no high hope for breaking that barrier—and "Vietnamization leads to perpetuating the war," that will be "not by our design but because the other side refuses to settle for anything less than a guaranteed takeover."

Even if Hanoi were to negotiate genuinely about Vietnam," the President acknowledged, that would not necessarily end the war in Laos and Cambodia.

While he expressed satisfaction that "Americans are leaving South Vietnam in safety," the President made it abundantly clear that he was forecasting no foreseeable total pullout without negotiations by the end of 1972.

Residual Force

On the contrary, the President's formulation made it evident, without saying so explicitly, that in lieu of negotiations he is projecting a Korean-type settlement which would retain in South Vietnam indefinitely a residual force of American air, logistics and support power after most U.S. combat troops are withdrawn.

The President already has laid a foundation to try to gain public acquiescence for maintaining an American residual force in South Vietnam by invoking the prisoner-of-war issue. As he repeated Thursday, "As long as North Vietnam continues to hold a single American prisoner, we shall have forces in South Vietnam."

When asked to explain that rationale, White House officials explained, on a non-attributable basis, the intended bargaining quid pro quo: In order to get the ultimately remaining numbers of American forces out of South Vietnam, Hanoi would have to bargain on release of the prisoners.

But there is something more significant underlying the disproportionately-detailed sections of the President's State of the World report which concentrated on the Indochina war, which administration officials dare not yet say aloud in public.

There is a growing belief among highest administration officials that with sufficient development of an attitude of public resoluteness in the United States, South Vietnam can be held as a non-Communist state, with long-term American military and economic underpinning.

Critical Test

This unspoken belief is now under critical military test in Laos. If South Vietnam's forces can stand that test, the Nixon administration undoubtedly will be emboldened to face more squarely the domestic political challenge now earmarked for its Indochina strategy by Senate Democrats.

"Steadiness overseas" for the whole range of American policy, beyond, as well as in, Indochina, is the theme woven through the President's report.

Here too the President's eyes must be almost as much on his Democratic adversaries as on his international adversaries. For he is facing in Congress challenges to his policies on the strategic arms limitations talks (SALT) with the Soviet Union; on his determination to maintain the level of American troops committed in Europe to the North Atlantic Treaty Organization; on his cautious policy for remolding relations with Communist China; on his insistence upon a high level of American military defense, and other elements of his conviction that "the United States will deal, as it must, from strength."

A year ago, in the President's first projection of "U.S. foreign policy for the 1970s," the overwhelming emphasis was on what the United States must stop doing:

"...America cannot—and will not—conceive all the plans, design all the programs, execute all the decisions and undertake all the defense of the free nations of the world. We will help where it makes a real difference and is considered in our interest."

In the months following, with the withdrawal of U.S. troops from South Vietnam proceeding, and with the weight of American policy pubicly cast on an "era of negotiations," ranking U.S. strategists privately began registering concern that the Nixon administration was portraying itself as a "patsy," with an over-pliable, over-passive posture in the world that was undermining its strength and encouraging the Soviet Union and other adversaries toward adventurism.

The shrill cry by President Nixon on April 30, 1970, at the time he launched the Cambodian border-crossing, that the United States would demonstrate that it was no "pitiful, helpless giant" marked the sharp public and psychological turnabout.

President Nixon's new formulation of his doctrine fully reflects that shift of course and tone, and attempts to reconcile it with all that went before by describing the Nixon Doctrine as a "philosophic attitude" rather than "detailed design," which "becomes clearer only in the process of translation into programs and actions."

All the original formulations of the admittedly ambiguous doctrine have been retained. But steel has been added to the structure to show, for example, as expressed in a major understatement, that while the U.S. intention is to reduce its military presence overseas it can still engage in such acts as "the discreet projection" of American presence in the Mediterranean during the Jordanian crisis of last September which raised the risk of a U.S.-Soviet confrontation.

Letters

Nixon's Policy

Joseph Kraft's column "The Alsop Implications" (IHT Feb. 17) is by far the most lucid and honest piece on the present situation I have read in months. It is clear that the Nixon administration is devoid of any ethics in its international dealings, of common sense and good judgment when it comes to sizing up the situation in Southeast Asia. It simply is on a chauvinistic rampage.

God help us all if Nixon has his way; he is rapidly becoming the new Hitler who'll plunge us into a new world war rather than admit that he and his coterie have been wrong.

MURRAY S. THURSTON.
Bombay.

Eye for an Eye?

May I suggest the medieval punishment of "breaking on the wheel" for Miss Krenwinkel and her cohorts? It might be a violation of her civil rights, but then carving up people in their homes is not exactly civilized behavior either.

Incidentally I know plenty of people locally who would be quite glad to do the "breaking" and it would not be under the influence of LSD. Just the influence of outrage and an impassioned belief that hideous sadistic crime deserves hideous sadistic punishment—not a cozy air-conditioned jail cell with television and hot and cold running lawyers.

orld Governments Invited
Put New Limits on Warfare

SVA, Feb. 26 (AP).—Govern-experts from 39 countries, g the United States, Com-China, Israel and Egypt, en invited to attend a con-here late this spring to lay ndwork of a new effort to ze warfare.

Vietnam war, the Middle risis and the struggle of n movements in many parts world have given impetus planned "development of tarian law" sponsored by -Swiss International Red ommittee.

protection of civilian popu-rom indiscriminate warfare eater rights for captured ong, fedayeen and other guerrilla fighters are among the proposed provisions sought by the sponsors to complement the existing conventions of The Hague, 1907, and Geneva, 1949, within the next two years or so.

One possible result might be a relaxation of North Vietnamese policy on American prisoners, at least by letting Red Cross delegates contact them.

Meeting in The Hague

Initial preparations will begin Monday when representatives of about 40 national Red Cross societies open a week-long meeting in The Hague to discuss the outlines of the project, which Red Cross officials think are "long overdue but most delicate."

If all invited parties accept, the Geneva meeting, scheduled for May 24 to June 12, would be the first to be attended by both the United States and China since the 1961-62 Laos conference here and also since American troops entered Vietnam.

In making available some key details of the proposals to come up for discussion next week and later in Geneva, International Red Cross sources said that they are seeking "realistic" amendments that have a chance of winning international approval and avoiding political issues. Unlike previous proposals, specific references to nuclear weapons and other modern arms are omitted.

Civilian Protection

High on the agenda are "minimum provision" to provide improved protection of civilians against aerial bombings and a prohibition of outright "terrorist bombings."

"It is now known, a bit late in the day, that massive air bombings of towns did not pay from the military point of view," an official Red Cross publication noted.

Red Cross officials said that existing conventions offer no protection at all in this field. The Hague rules were drawn up before the first aerial bombing in history, in 1911 during a war between Italy and Turkey.

In this context, it is hoped that the amended conventions will provide definitions of military and civilian objectives and the possibility of formally creating "open cities" subject to international control.

Application of humanitarian laws to civil wars and uprisings is likely to pose one of the most difficult problems. Until now, a vague article of the Geneva Convention stipulates merely that rebels must not be subjected to inhumane treatment and not be summarily executed. But an established government under which rebels are sentenced to death and executed under national law does not violate the letter of the existing convention.

Tournament Golfer at 100

SEA ISLAND, Georgia (UPI).—Zacharian D. Blackistone (above), a Washington, D.C., florist, turned 100 years old last week. This week he is appearing in the Sea Island Seniors Golf Tournament—where 55 years of age or older is a prime requirement for players—on this island off the Georgia coast. His partner is 85-year-old A. J. Hendley, also from Washington.

Mr. Blackistone admits that his drive is not as long as it once was, maybe 100 to 125 yards where once it was 200 or more. In a warm-up round, Mr. Blackistone shot a 55 for nine holes.

He can't remember when he first took up golf.

"I remember winning a prize at a tournament in the Columbus Country Club in Washington in 1910," Mr. Blackistone said. He was 39 years old then.

Vatican's Envoys in Moscow Differ on Russian Warning

MOSCOW, Feb. 26 (AP).—A member of the visiting Vatican foreign minister's entourage said tonight that Russian officials cautioned the papal envoy against interfering in Soviet religious affairs, but a higher member of the delegation later denied it.

The contradictory reports followed a meeting today between the Most Rev. Agostino Casaroli, the Holy See's foreign minister, and Soviet officials responsible for religious questions.

Prof. John Kwaku Nimo, of Ghana, a member of the Vatican Council of the Laity, reported that the Russians "made it plain they would not allow interference in the internal religious affairs of their country."

Later, another delegation member, who asked not to be identified, denied that the Russians had said this. He would not, however, reveal details of the conversations on the question of religious liberty for Soviet Catholics, a point the archbishop came to Moscow to raise. The delegation member who denied Prof. Nimo's report was not the archbishop.

He said Prof. Nimo's report was based on a "misunderstanding." Observers familiar with Soviet attitudes were not surprised by Prof. Nimo's declaration, since the Russians have frequently stated that religious questions in this country—Catholic, Jewish or Protestant—are an internal matter.

Earlier today, the archbishop had a meeting with Semyon P. Kozyrev, a deputy Soviet foreign minister.

Brandt Declares His Party, Communism Incompatible

BONN, Feb. 26 (Reuters).—Chancellor Willy Brandt declared today that his Social Democratic party drew a firm line between social democracy and Communism and would resist any Communist attempts to undermine the party.

Social democracy and Communism are not compatible, he said in a speech to the West German Chamber of Industry and Commerce.

"Anyone who does not grasp this or does not act accordingly will be clearly told that he does not belong in my party," Mr. Brandt said.

Immediately after making his speech the chancellor left for a meeting of all Social Democratic leadership bodies at which the relationship between social democracy and Communism was to be carefully examined.

The meeting was expected to pass a basic resolution on this relationship, stating that the two ideologies cannot be linked.

The issue was spotlighted last week when the Social Democratic mayor of Munich, Hans-Jochen Vogel, announced that he would not run for office again because of the obstructive tactics of the leftist Young Socialists in the Munich party.

Mr. Vogel, mayor of the Bavarian capital for the last 12 years, warned that the situation inside the Munich party could cause serious repercussions on the federal level and could even endanger Chancellor Brandt's government in Bonn.

The opposition Christian Democrats have repeatedly used the activities of the Young Socialists as a stick to attack Mr. Brandt. Observers here agree that the Social Democrats now must take a decisive step to clarify their attitude toward their left wing.

Danish Daily Started In 1749 Goes Weekly

COPENHAGEN, Feb. 26 (NYT).—Berlingske Aftenavis, believed to be one of the oldest newspapers in the world, appeared for the last time yesterday as an afternoon paper. It will continue as a weekly news feature magazine.

The paper first appeared Jan. 3, 1749, as an afternoon paper. The morning paper, Berlingske Tidende, now one of the biggest in Denmark, was started about 100 years later as a companion paper.

Negotiations Seek End Of French Air Strike

PARIS, Feb. 26 (AP).—Negotiations began today to end a dispute which has grounded France's three major airlines for a week.

Management and union negotiators were divided into small committees to discuss new approaches to resolving the dispute. There were indications that the talks might be lengthy.

Pilots, navigators and radio operators for Air France, Air Inter and UTA struck last Friday for more pay and improved work schedules. The companies locked out the strikers beginning Monday.

Italian Press Price Rise

ROME, Feb. 26 (AP).—Starting Monday, daily newspapers in Italy will cost 80 lire (12.8 cents), an increase of ten lire.

South Africa Again Holds Cleric in Bail
Police Sift Documents Confiscated in Raids

JOHANNESBURG, Feb. 26 (Reuters). — Johannesburg's Anglican dean was remanded under bail again for three months today on a charge involving South Africa's Suppression of Communism Act. Security police continued a widespread probe into activities allegedly linking him with banned subversive movements.

The 59-year-old dean, the Very Rev. Gonville ffrench-Beytag, made a one-minute formal appearance and was remanded at the request of the state to appear again on May 28.

Bail was renewed at 5,000 rands ($7,000), set when he was first charged on Jan. 28 following eight days of detention incommunicado by security police.

Meanwhile police sifted through a haul of documents confiscated in a four-city swoop by Security Branch detectives yesterday on homes and offices of church officials, religious organizations and student bodies.

Raids in 4 Cities

The synchronized raids—launched in the key cities of Johannesburg, Cape Town, Durban and Port Elizabeth—were the biggest Security Branch operation here in a decade.

Viewed against a background of intensive action against immigrant clergy in recent years—40 churchmen have been deported or refused entry in the last five years—the police raids increased fear in many church circles that the government is engaged in a vendetta against anti-apartheid churchmen.

But the security police chief, Brig. Johannes Venter, has rejected as "an infamous lie" suggestions that police are engaged in a government-ordered purge of the clergy.

Witness for Racial Harmony

Dr. Beyers Naude, director of the Christian Institute—one of the organizations involved in the police raids—said today:

"In the light of the latest drastic actions which the government has taken against churchmen without giving any reason or substantiation, we can only assume that the work and witness of these people for racial harmony, justice and peace is unacceptable to the government."

The Very Rev. ffrench-Beytag is charged with taking part in the activities of unlawful organizations and carrying on the direct or indirect interests of the outlawed South African Communist party and/or the militant African National Congress.

The gray-haired cleric — well known for his outspoken stand against apartheid—is also accused of distributing or helping to distribute pamphlets issued by the two organizations calling for bloody guerrilla warfare in South Africa.

Coalition Loses Smallest Party

Colombo Rejects Red Charges Of U.S. Interference in Italy

By Paul Hofmann

ROME, Feb. 26 (NYT).—Premier Emilio Colombo, in a report to parliament today on his recent visit to the United States, rejected Communist charges of American interference in Italian domestic politics.

Mr. Colombo said that Washington was interested solely in the continuity of Italy's foreign policy as formulated by the center-left coalition on which his government was based.

Even while the premier was addressing the Chamber of Deputies, the center-left alliance was weakened by the withdrawal from the cabinet of the smallest of its four components, the Republican party, in a dispute over legislation now before parliament.

That party's only senior member in the government, Justice Minister Oronzo Reale, and its two under secretaries in Mr. Colombo's administration are expected to announce their resignations tomorrow.

The issues involved concern proposed reforms of the tax and education systems and are unrelated to foreign policy. However, the estrangement between the Republican party and the three other members of the government coalition—Mr. Colombo's own Christian Democratic party and the Socialist and Social Democratic parties—reached a breaking point during the premier's trip to the United States Feb. 17-23.

Although pulling out of the administration, the Republican party has promised to continue its support of the government in parliament.

A spokesman for the premier said that Mr. Colombo would reshuffle his cabinet. If his Christian Democrats, the Socialists and the Social Democrats go along with this solution, the present seven-month-old government would gain a new lease on life even though its prestige and efficiency might be diminished.

The disagreement between Mr. Colombo and the Republican party, which won 2 percent of all votes cast in the last parliamentary elections in 1968, was mainly brought about by that group's leader, Ugo La Malfa.

Mr. La Malfa, a 67-year-old economist, accused the Colombo government of watering down necessary reforms to modernize the structures of Italian society. Recent amendments to bills that would reorganize Italy's tax maze and overcrowded universities were criticized by Mr. La Malfa as expressions of political expediency rather than long-range vision.

Washington Complains

ROME, Feb. 26 (AP).—The U.S. government has made a strong verbal protest to Italy against the cordial, semiofficial reception here accorded Mme. Nguyen Thi Binh, foreign minister of the Viet Cong, an informed political source said today.

The U.S. Embassy declined to confirm or deny the reported protest. The Italian government made no comment.

The source said Wells Stabler, chargé d'affaires in the absence of Ambassador Graham Anderson Martin, who is in the United States, called upon Italian Foreign Minister Aldo Moro yesterday.

Mr. Stabler deplored the participation of Socialist party parliamentarians in receptions for Mme. Binh, inasmuch as the Socialists form part of the ruling center-left coalition government, the source reported.

Mme. Binh came to Italy early this week at the invitation of Italian leftists. While here she accused the Nixon administration of deadlocking the Paris peace talks and seeking to prolong the Vietnam war "with cruel and treacherous means."

16 Crewmen Hurt As Two Vessels Collide in Baltic

KIEL, Germany, Feb. 26 (UPI).—All but one of the 16 injured crewmen of the West German tanker Bomin, which collided with an East German vessel late last night, were released from a hospital today after receiving first-aid treatment, police said.

The 13,194-ton Bomin and the 15,968-ton oil-ore carrier Aue collided and burst into flames in the Baltic Sea off Kiel.

Pilot boats and helicopters rescued all 35 crewmen aboard the Bomin. The fire aboard the East German vessel was extinguished early this morning. The Aue's crewmen did not leave the ship.

24 Saved Off Australia

BRISBANE, Australia, Feb. 26 (AP).—The 24-man crew of the Norwegian freighter Silidre Timur was rescued today after the ship ran aground and started to break up on Parker Reef, off Queensland's coast. They were rescued by another Norwegian ship, the Thors Cape.

Austria Arrests Press Aide as Spy for Czechs

VIENNA, Feb. 26 (UPI).—An editor of the Austrian Federal Press Service has been arrested on charges of espionage for Czechoslovakia, police said today.

The alleged spy was identified as Karl Erwin Lichtenecker, 42, a member of the Federal Press Service since 1955.

A spokesman for the Ministry of the Interior said Mr. Lichtenecker has confessed to having committed "espionage activities for Czechoslovakia." Police officials did not elaborate on his activities.

Mr. Lichtenecker was a colleague of Josef Adamek, another editor of the Federal Press Service, who was arrested in 1968 on charges of espionage for Czechoslovakia. Adamek was later sentenced to ten months in jail for his crime.

A spokesman for the Federal Press Service said Mr. Lichtenecker is an expert on foreign languages and speaks Czech. One of his duties was to translate official handouts from German to other languages and to guide foreign newsmen on their tours through Austria. Mr. Lichtenecker also speaks English fluently. He taught at one time at Buena Vista College, in Storm Lake, Iowa. His wife is American.

Theodor Svedberg Dies; Won Nobel Chemistry Prize

STOCKHOLM, Feb. 26 (UPI).—Prof. Theodor (The) Svedberg, 86, Swedish nuclear scientist and Nobel Prize winner, has died, his family announced today.

Prof. Svedberg won international fame for his construction of a centrifuge which allowed him and his assistants to weigh and measure albuminous molecules.

He won the 1926 Nobel Prize for Chemistry for his work.

Prof. Svedberg became a professor at the University of Uppsala in 1912. He had been director of the Gustaf Werner Institute for Nuclear Research since 1949.

John Clair

GRANADA, Spain, Feb. 26 (AP).—John Clair, 63, who was chairman of the U.S. Olympic Games Ski Committee in 1956, was killed Wednesday when a car he was riding in crashed into a tree near here, police reported today. Mr. Clair was heading for the Sierra Nevada, one of Spain's most important ski areas.

Gen. Ernest M. Cowell

ST. PETER PORT, Isle of Guernsey, Feb. 26 (UPI).—Maj. Gen. Sir Ernest M. Cowell, 84, who directed the airlift of Allied casualties from North Africa and Italy during World War II, died today in a hospital here, friends said. The physician-general served as honorary surgeon to King George VI after the war, retiring later to this island.

Sammy Gallop

VAN NUYS, Calif., Feb. 26 (Reuters).—Sammy Gallop, 55, who spent 30 years writing lyrics for Broadway musicals and revues, hanged himself in a hospital here, the Coroner's Office announced today. Mr. Gallop wrote the words to many popular melodies, including "Elmer's Tune" and "Holiday for Strings."

Tullio Carminati

ROME, Feb. 26 (UPI).—Tullio Carminati, 77, one of Italy's leading silent film actors, died of a stroke today.

Filipino Police Feud; Shots Kill 4, Civilian

MANILA, Feb. 26 (AP).—Members of two police units shot it out in Lipa City, south of here, Wednesday, leaving four lawmen and a bystander dead and five policemen wounded, the Philippine News Service reported yesterday.

It said the gun battle, apparently sparked by an argument over the handling of automobile thefts, came because of "bad blood" which has existed between Lipa's police and a national police unit based in the town.

ART and POLITICS

Reds Protest Part of London Show

By Anthony Lewis

LONDON, Feb. 26 (NYT).—A major exhibition of post-revolutionary Russian art opened here tonight with one room sealed at the insistence of Soviet officials.

The room contained structured wall reliefs by Lazar Lissitzky, a major figure in Soviet art of the 1920s. Officials also removed from the show abstract paintings and sculpture by Vladimir Tatlin, Lyubov Popova and Kasimir Malevich.

The Soviet Union apparently objected to the works because they were abstract, or "decadent" in the Soviet view. The Soviet Ministry of Culture made clear that it would remove everything it had lent to the show unless the British agreed.

The issue was understood to have gone all the way to Lord Eccles, minister for culture in the Conservative British government. In the end, no practical alternative was seen to giving way to the Soviet demands.

At the Hayward

The exhibition is in the Hayward Gallery, the big new public gallery next to the Royal Festival Hall south of the Thames. The Arts Council is the sponsor of the show, called "Art in Revolution."

At a private viewing last night, there was a buzz among artists and others present about the Soviet action, with feelings of resentment evident. Public viewing is scheduled to run today through April 18.

The exhibition gives examples of theater designs, posters, paintings, sculpture, architecture and films of the period from 1917 to the late 1920s. That was a time of revolution in Russian art, before Stalin decreed a return to realism and formalism.

At the urging of the Soviet Union, the exhibition also includes some works from more recent times. But its main purpose is to illustrate the movement known as constructivism.

Norbert Lynton of the Hayward Gallery, writing on constructivism, said it was difficult to define. It combined an expressive functionalism, asserting technology, with a celebration of socialist ideals and optimism.

Lissitzky's Room

The particular target of official Soviet objections was a room designed by Lissitzky, an architect, artist and typographer. He built it for a Berlin exhibition of 1923, and visitors entering it were supposed to get a new sense of space. He called it his "PROUN" room, from initials meaning "for the new art."

The Arts Council had the room rebuilt in Holland from the original designs. It was 12 feet square in size. Last night the room was sealed and the door painted over.

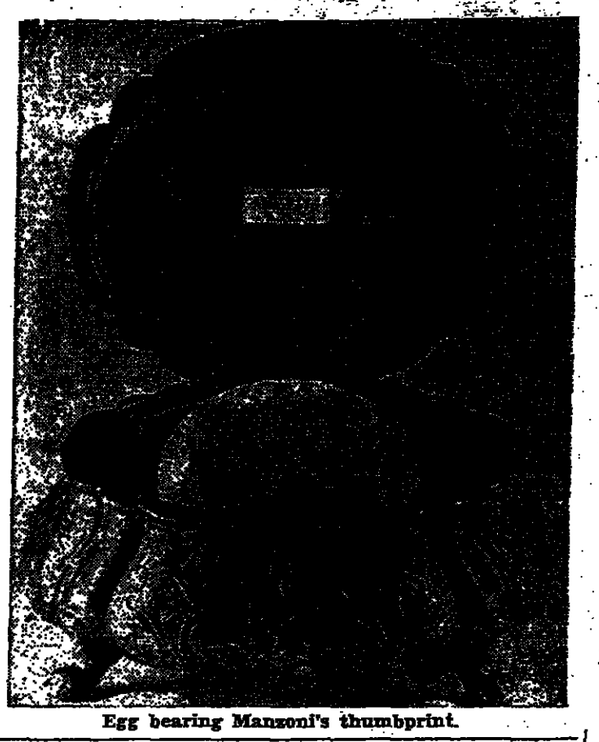

Some Lissitzky watercolor-pencil-crayon paintings that he termed "PROUN Studies" were also removed at Soviet insistence. They were on loan from Mrs. Donald Ogden Stewart, widow of Lincoln Steffens, the great American radical.

Also deleted from the show were works by Malevich, Popova and Tatlin. But curiously, other works by the same artists were allowed to remain.

"The ideas are manifest everywhere," one annoyed Hayward staff member said, swinging his hand around the walls covered with striking posters and other works.

Tatlin is represented by what is probably the single most remarkable object in the exhibition. That is a reproduction of a monument to the Third International designed in 1919-20.

It is a corkscrew tower, leaning to one side. It was supposed to be built in a size larger than the Eiffel Tower, but the only thing ever made was a 22-foot model. That has been reproduced and placed on a roof exhibition area of the Hayward.

Egg bearing Manzoni's thumbprint.

One of Rome's Most Daring Exhibitions—Piero Manzoni

By Edith Schloss

ROME.—Piero Manzoni might be called the last of the Dadaists and the first conceptual artist in Italy. His death at the age of 30 in 1963 was nothing short of a tragedy for Italian art.

The long awaited retrospective at the Galleria Nazionale d'Arte Moderna in Rome is strangely unsatisfying, whether because of its art-educational look, or because it is incomplete. There are many blow-ups of the artist in action, too many gray room dividers for walls, so that it is playing against the very nature of Manzoni's work, the traces of his life arranged like so many impaled butterflies. Despite its failure as a "show," it is one of the most daring and moving exhibits of contemporary art in Rome this year.

Early canvases show Manzoni experimenting with ordinary abstraction; but surface effects, odd welts and crinkles already occur. On other early paintings endless repeats of pliers, keys, regiments of black homunculi swarm out as if driven to join numberless others outside the frame—here Manzoni seems to want to mirror the inexorable multiplicity of life. After these, his quest becomes ever clearer: he wants to catch the materiality of this world, to show up its very tactile essence.

Sheets starched into ripples, patches, quilted shreds; spools of surgical cotton huddled together like nests of cocoons; fleeces of silver angel's hair raying out; rows of Italian rolls mounted like buttons on a card and coated with whitelead; whole tied and sealed postal packages glued on canvas, their contents a mystery forever—looking at these, our fingertips begin to feel through our eyes. They all are the "Achromes" of the '50s—no color was to seduce or to detract, subtly and humorously the surfaces were to speak of their own pure existence, of themselves alone.

The Egg

And then one day, the egg of Manzoni! He took a hard boiled egg which was an egg and nothing but an egg and simply put his thumb-print on it. Lo! A work of Art! What could be simpler? From here on it was easy going. His irony became ever more fierce and gentle and tragi-comic: a balloon inflated and sealed by the artist—"Artist's Breath" ("Artist's Blood" in vials was to follow); a pretty nude model signed and dated by the artist was given a certificate to the effect she was going to be a "Work of Art" for life; the artist's excrement was canned and neatly lettered in three languages; a line a mile long was drawn on newsprint, rolled up and put into a tube inscribed, "Artist's Line"; another artist's shoe was coated with paint and signed, etc., etc.

What is a Work of Art? What is an Artist? Someone at an artist's party the other day said: the best thing about art is that it is irrelevant. Someone else said: Art is about facts. Manzoni mockingly pointed to both the irrelevance and to the facts. He put down the idea of Genius at the same moment that he exalted it. He exhorted us to reconsider the very substance of things in their visual purity, and at the same time framed, sealed, and signed them. Everything he did was a superb poetic paradox.

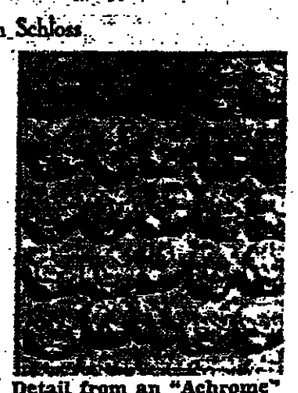

To judge from the photographs, he was a harmless dump young man, always smiling sheepishly. But this placid seeming Humpty Dumpty balancing himself on his far-out wall was dead serious, knew perfectly well what he was about—glimpsing the futility on one side of it, the madness on the other. The clarity of his purpose and his marvelous wit kept him from having a Big Fall. One of his last works was a simple square stone on which was written "Socle du Monde" (base of the world). It stood upside down in a field of grass. What could be more magic?

Piero Manzoni, Galleria Nazionale d'Arte Moderna, 131 Viale Belle Arti, Rome, to March 7.

* * *

Gianni Kounellis, who was born in Greece, is considered one of the most "advanced" artists in Italy today. His paintings from 1959 and 1960, on view at Tartaruga, are made of stenciled large letters of the alphabet and other signs—in twos, threes and fives, mostly black and rarely in color—most tastefully deployed toward the edges of bare paper or canvas. Their poise is flawless. One wonders why Kounellis did not go on from there, instead of beginning to play too much with ideas and venturing ever further into the complex but questionable land of conceptualism.

Gianni Kounellis, Tartaruga 1-A Via Principessa Clotilde, Rome, to March 10.

Detail from an "Achrome" (1961-62) by Piero Manzoni.

Manzoni Retrospective Stirs Deputy to Official Protest

ROME, Feb. 26 (Reuters).—The Italian government faces a parliamentary question on whether it was right to spend public money on exhibiting a collection of tins—containing samples of an "artistic creation" produced by all mankind—as a work of art.

And if it is a work of art, an Italian deputy suggested that the popular masses should be made rapidly aware of the "boundless horizons" open to them.

The controversy arises out of an exhibition (see review on this page) mounted by avant-garde director Palma Bucarelli, at the Rome Galleria d'Arte Moderna, a public museum. The exhibition is devoted to the works of Piero Manzoni, who was killed in a car accident eight years ago at the age of 30.

Among the paintings, sculptures and lithographs are some tins labelled "merda" (excrement) and specifying that it is the artist's work.

Written Question

In a written question to Education Minister Riccardo Misasi, the deputy, Guido Bernardi, asked whether it was right to spend public money on such a project, and what guarantee the public had about the authenticity of the artist's work.

Mr. Bernardi pointed out that "a similar artistic creation to that so highly valued by Manzoni and so authoritatively backed by Palma Bucarelli is produced daily by all mankind."

The deputy, a member of the Catholic Christian Democrat party, suggested that this art form should be given the maximum publicity "so that the popular masses, hitherto ignorant bearers of so much artistic value always directed toward the municipal sewers, may be made rapidly aware of the boundless horizons which the above-praised Manzoni and Bucarelli have opened up to them."

Mrs. Bucarelli issued a statement defending Manzoni as one of the most important artists of the 1950s. In this retrospective exhibition, it would not have been right to overlook a the controversial and experimental side of his work, which had a great social interest, she said.

"The position he takes toward the consumer society, the myth of the artist, and the aridity of our time which has made art a financial investment . . . are things which identify with great intelligence both ironic and dramatic on of the most disturbing problems of our epoch," she added.

INTERNATIONAL EXECUTIVE OPPORTUNITIES

Head of Administration

European Operations—London *up to £6,000*

An International supplier of Computer Peripheral Equipment is rapidly expanding its European activities. This currently involves a young multi-national management team and over 800 people in a dynamic business with an annual turnover in excess of $25 million in Europe.

A Head of Administration is required to operate from the European Headquarters based in London who would spend up to a quarter of his time working with the Company's twelve other European offices. The successful candidate will probably be a Continental national but other candidates of International standing might be considered provided they have fluent French (and ideally German) in addition to English. He will have displayed top administrative abilities in multi-national situations and will probably have a personnel background.

Salary and other perquisites will be negotiated subject to age and experience for a man aged between 32-42

All applications will be treated in strict confidence and no information will be disclosed to our Client without permission. Please write to Mr. R. M. Marshall stating age, current salary and how you meet our Client's requirements, quoting reference HA/3074/IHT on both envelope and letter.

INSTITUTIONAL
SALES REPRESENTATIVE

Expanding operations have created an opportunity in our London Office.

The successful applicant should be 25 to 35 years of age, be familiar with North American securities, possess a sound educational background and have an ability to interpret extensive and sophisticated research material and communicate effectively. Extensive experience would be a considerable asset.

There will be a period of familiarisation and training in Canada and the U.S. depending upon experience, and compensation will be commensurate with qualifications.

The prospects are exceptional.

Applications will be treated in the strictest confidence.

Our employees are aware of this advertisement.

Write to: Box D-2,404, Herald, Paris.

MANAGEMENT
INFORMATION SYSTEMS DEVELOPMENT
The United Nations and Specialized Agencies seek a
DIRECTOR

for the Secretariat of their Inter-Organization Board for Information Systems and Related Activities at Geneva to direct the design and development of inter-organization management information systems for the planning and execution of economic and social development projects.

The systems should assure interface arrangements with the sub-systems of the member organizations and where appropriate with systems outside the United Nations family.

The Director will also be responsible for estimating and budgeting for the resources and services required to carry out the Board's work program.

The post requires proven experience and competence in the planning and development of management information systems, preferably with experience in directing software specialists in the establishment of large-scale software systems.

Fluency in English or French is required and a working knowledge of another language would be an advantage.

This is a post which demands not only a high level of professional skill but also a demonstrated capacity for leadership as well as the ability to develop effective working relationships in systems development affecting various organizations.

The salary and allowances will take account of the qualifications and experience of the successful candidate.

Enquiries concerning this post may be addressed to the Chief, Personnel Services, United Nations Office at Geneva, Palais des Nations, 1211-Geneva 10, Switzerland. The closing date for applications, which should give details of career and relevant experience, will be April 2, 1971.

COMPUTER SYSTEMS

O.E.M. SALES AND SUPPORT SPECIALISTS
Major International Manufacturer of mini and midi computers expanding O.E.M. sales worldwide seeks qualified professionals for dynamic growth positions at European headquarters.

O.E.M. SALES
Staff sales representatives for O.E.M. sales to international clients. Requires 4 or more years in technical O.E.M. sales of mini and midi computers for industrial and technical applications. Fluent French or German, plus English. Must be aggressive, self-starters, proven track record, university degree. Extensive travel, relocation required.

O.E.M. APPLICATIONS ENGINEERING MANAGERS
Will have full responsibility for O.E.M. sales support, proposals, technical presentations. Requires 6 years experience in small computer industrial applications, systems design, software. Engineering degree, extensive travel, relocation required.

APPLICATIONS SYSTEMS ANALYSTS
Senior level staff systems analysts for sales support. Requires 4 to 6 years programming + system design experience in scientific/industrial/real time applications; university degree. Extensive travel, relocation required.

Reply with a history of your past achievement, performance and salary to:

Box D-2,401, Herald Tribune, Paris.

ENGINEERING
EEs, MEs, IEs.
There are several opportunities for our clients at various levels throughout Europe and Germany. We invite your resumé stating your preferences. No fees. Also, intermediate positions in flight-hydraulic.
Write in confidence to:
MTS, succursale de Montreux,
3 Ch. Nlle. Heleise, 1815 Clarens, Switzerland.

e Art Market

uris Auctioneers Schedule ıree Top Medieval Sales

By Souren Melikian

RIS, Feb. 26.—Are the French auctioneers, at long last, be*ginning to respond to the needs and exigencies of modern* e? It would certainly seem so, judging from the close uling of three major sales of Renaissance and medieval art e Hôtel Drouot.

y holding three of them within five days, the auctioneers aking it possible for the international collector to come to and, during a brief stay, see the best that Drouot has to

Few buyers would relish the idea of three separate trips. foreover, the high quality characterizing each sale makes ucheduling even cleverer, for the whole is, for once, greater the sum of its parts. This promises to be one of the most sting auction weeks the world has seen in recent times.

The first sale of Renaissance and late medieval sculptures place today. Etienne Ader, assisted by expert Charles Ratton, med some 100 lots, all part of a private collection.

rices were consistently high. A 16th-century group showing ıne, the Virgin and Child, 88 centimeters high, was knocked at 36,740 francs. Another 16th-century work, showing the in a realistic style, went for 22,440 francs. Both were made ved wood.

n Monday, the auction, to be conducted by Maurice Rheims the expert Jean Roudillon, will include two separate collec- both of medieval objects. Then, on Wednesday, comes yet er similar collection, this one to be auctioned by Philippe man, assisted by Mr. Roudillon.

Monday Sale

Monday, buyers will first be offered an unusual collection, ibled by an unusual man. The collector is "His Excellency Bey Paul Adamidi Frasheri," according to Jean Roudillon's ogue. Mr. Adamidi Frasheri is now a Swiss citizen, but, says atalogue, comes "from an ancient and illustrious Albanian y." He was chamberlain to the Albanian court and is a alier de l'Ordre Militaire et Hospitalier de Saint-Lazare."

uch a background and a life spent mostly in Constantinople Alexandria account for his tastes in objets d'art. He was par- rly interested in objects made from A.D. 500 to 1200 from to Byzantium, with his preference going to minute objects a luxurious feel. He likes gold, jade and rock crystal.

f all the pieces he accumulated, the most extraordinary l appear to be a rectangular gold plaque, 107 mm. high, with ling figures of St. Matthew and St. Luke in translucent ıels. The plaque once belonged to the Russian collector ne, who catalogued it, in 1912, as "Georgian enamel."

From the early Middle Ages on, Georgia was one of the great rs of cloisonné work. In the mid-19th century, by the time Russians had firmly established themselves in the Caucasus, Georgian monasteries, particularly the one at Ghelati, were systematically plundered—as were other art centers in the ital countries so occupied. Century-old church treasures were rsed; on occasion, icons were torn in bits, as the Soviet art rian Shalva Amiranishvili, a Georgian himself, tells us in his on Georgian enamels. Several enameled icons were removed their silver casings, among them the Khakhouli icon, soon red by Botkine. A famous gospel binding was torn up and amel plaques dispersed, to be replaced by Russian imitations fake Georgian inscriptions. The Adamidi gold plaque was mably torn away from its setting, possibly a gospel binding, ıe same time.

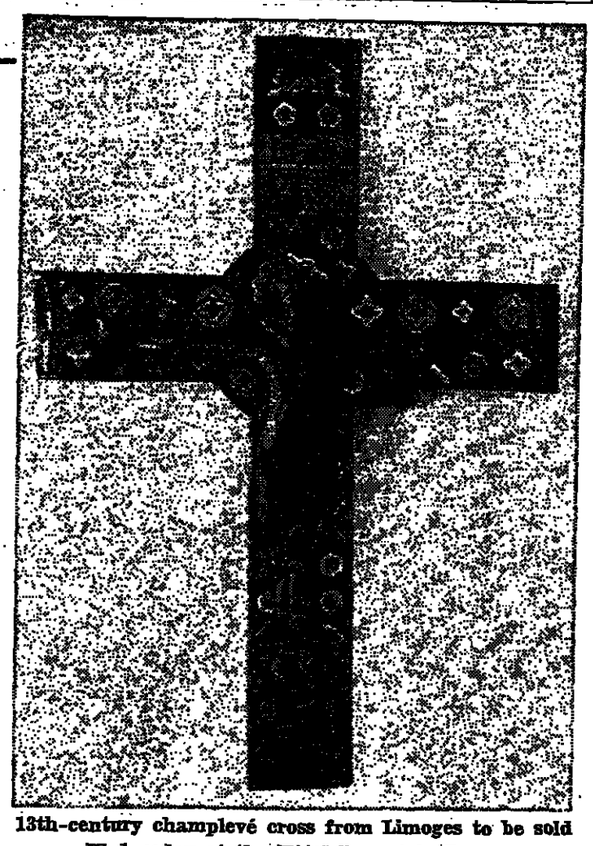

To identify the plaque, Jean Roudillon made a trip to Georgia, e some of the dispersed national treasures have been returned. research led him to think that the plaque must have come the Ghelati monastery and may have adorned the Khakhouli ych, broken up by the Russian occupiers. This would make it th-century piece. Nothing of the kind has been auctioned in West in recent years. Thus the estimated selling price of 0 to 80,000 francs may not be unreasonable.

Second Half

The second part of Monday's sale will be devoted to "Mr. W's" ction, which is vastly different from Mr. Adamidi Frasheri's. W's is characteristic of the kind of medieval collection that Frenchmen formed in the early 1930s. The 13th-century ages champlevé enamels are one of its special features. There magnificent pyxis, or cylindrical box, topped with a conical r, 12 cm. high, whose abstract motifs of stars and crosses in ptionally fine colors make it worthy of any museum. Possibly more desirable is a reliquary, untouched, with just one or two bits missing. Still, the estimate of 25,000 francs seems rather to me.

The real excitement will take place Wednesday when Maître lman, assisted by Mr. Roudillon, will sell the third col- n, the largest and most consistent of them all. It has ıe characteristics of a Renaissance cabinet de l'amateur as lized in the 1920s. Jean Roudillon points out that several e objects coming up for auction have completely gone out shion.

here is a *cassone*, or 16th-century Italian oak coffer, carved gh relief with a scene from the Bible and a long Latin ption, with little apparent concern for coherence, referring vid fighting Goliath. Although an object of utmost rarity, y well pass unnoticed, for few buyers take an interest in carved wood.

13th-century champlevé cross from Limoges to be sold Wednesday at the Hôtel Drouot in Paris.

There are also several *orfrois* of top quality. But these days who ever bothers to look at religious pictures interpreted in brocaded silk—which is what *orfrois* practically are.

The enamels, even better than those to be sold Monday, will no doubt attract more attention. At least three pieces are of a standard not seen at auction in many years—not since the Pincot sales in Paris some 20 years ago, according to Mr. Roudillon.

Three Parallels

A dish, decorated with the unusual figure of a horseman, borrowed from Iranian iconography via Egypt, can be paralleled by only three other pieces: a pair in the Budapest Museum and another in the Furst zu Liechtenstein collection.

Still rarer is a *baiser de paix*, or plaque kissed by believers during religious ceremonies. It has the shape of Iranian pottery revetment tiles and shows Jesus on the cross between the Virgin and Saint John. The style is very peculiar and is thought to be Parisian of the 14th century. Only one other similar piece is known—in a private collection. Other lots of high quality round off the sale—Gothic ivories, 16th-century painted enamels from Limoges and a few 13th-century bronzes.

Taken together, this sale and the other two may be considered a landmark in the auction market. Although prices have tended to go down for some time, my feeling is that the medieval objects offered in these sales will still fetch the maximum. They belong to a dwindling class of objets d'art and, with a few more such sales, medieval masterpieces may disappear completely from the market.

* * *

A highly important sale of Chinese objects, ranging from archaic bronzes of the Shang period to T'ang pottery is to be held at Sotheby's Monday. The exceptionally high quality of the objects makes this a test sale. If prices should be on the weak side, it would confirm persistent reports that the Japanese buyers, very active until recently, are showing signs of greater reserve.

LONDON THEATER

'Mister' Loses Way in a Sea of Words

● "Spoiled," by Simon Gray

● "Captain Brassbound's Conversion," by George Bernard Shaw

By John Walker

LONDON, Feb. 26.—Stanley Eveling is a writer of enormous potential, which has been intermittently realized so far. "Mister," his new play at the Duchess Theatre, loses its way—or, at least, it lost me—in a mass of words that clutter the mind in the same way as the stage itself is heaped with rotting relics of Britain's seafaring past.

Mister (Freddie Jones) is one of them. A shy, stranded, virginal ex-officer who has become a dealer in naval antiques and stolen goods, sharing a shabby basement with an elderly seaman (Esmond Knight, breathing life into an old cliche) and a dummy dressed as Nelson. *Mister*—which is what officers are called at sea—longs to die, suffers from dreams of corpses, is haunted by a wartime memory when he did nothing but watch a mine bob through the water until it exploded against his ship.

Into his life erupts the brash, vulgar, but vital Ella (Delia Lindsay), who claims to be the daughter of a now-dead shipmate. She tries to change him, attempting a seduction that comes nearest to success when *she persuades him* to wear Nelson's clothes while she dresses up as Emma Hamilton.

Mr. Eveling often writes like an angel. But, like an angel, he records everything, leaving no word unspoken. He stuffs every nook and cranny of his play with words. A character only has to open his mouth, and they tumble out never-endingly as if from an overfull cupboard. He gives many indications that he intends the play to have a greater reference. Mister, I fear, may even be meant to represent England now, an impotent relic dreaming of death, in contrast to the battered but triumphant England of Nelson.

In its self-effacing way, Freddie Jones's performance is a tour-de-force. He copes marvelously with his death speech, with which the play ends—a long, rambling monologue, full of the sounds of the sea, in which he relives his traumatic wartime experience. There is, too, an invigorating appearance by Andrew Robertson as a weird wee Scotsman, afflicted, like so many of Mr. Eveling's characters, with a compulsive need to talk.

* * *

Simon Gray's "Spoiled," at the Haymarket, is, ostensibly, a low-keyed domestic drama which takes a long time to cover a little ground. Howarth (Jeremy Kemp) is a schoolmaster who invites a dull but eager student, one of the world's losers, to spend a weekend at his home so that he can prepare for an examination away from a possessive and anxious mother.

Howarth's wife (Anna Massey, adding a cutting edge to her lines) is not only heavily pregnant but also too witty for her own good. She is unable to cope with the knowledge that her condition disgusts her husband. The boy is vulnerable, fatherless, and pathetically anxious to please. By the time the weekend is over, the teacher has gone to bed with his pupil, while the wife can do nothing but wait helplessly outside the bedroom door.

The seduction is terribly tasteful. Simon Ward, giving an excellent, affecting performance as the boy, wears his pajamas tightly buttoned to the neck and the scene is faded out at the first embrace.

If you ignore the surface realism and Mr. Gray's accurate social observation, and just listen to the dialogue, the play becomes another thing altogether. The game is given away by such lines as: "You don't know anything at all—least of all about yourself." What Mr. Gray has written is a slow, old-fashioned, sentimental and cozy melodrama.

* * *

Ingrid Bergman is a deservedly popular actress who is drawing the town to see her as Lady Cicely Waynflete in a revival of Bernard Shaw's "Captain Brassbound's Conversion" at the Cambridge Theatre. Miss Bergman's stage appearances are too rare not to savor. In the past, she has shown excellent taste in her roles, appearing in Ibsen, O'Neill, and Turgenev.

Sadly, here she has been led astray by her desire to act in a comedy. Shaw wrote the play as a vehicle for Ellen Terry, and also as a satire on the bombastic, exotic melodramas that were much to the taste of Henry Irving. It dates badly, with an interminable first act given over entirely to explaining the intricacies of the not very interesting plot. Shaw's wit, his delight in demonstrating that a judge and a villainous pirate share the same concept of justice, cannot save it from tedium, especially in this production.

Lady Cicely is the epitome of those extraordinary, indomitable Victorian explorers who dealt with trouble by ignoring it, quelling riot and rape with a stern glance or a kind word. Here, she straightens out Morocco, charms sheiks, transforms pirate Capt. Brassbound, as well as *confounding* her brother-in-law, a pompous judge.

Miss Bergman understandably cannot manage an English eccentric, and transforms Lady Cicely into a person of exquisite charm and grace. In the process, Shaw is softened—although the performances by Joss Ackland as Capt. Brassbound and Kenneth Williams as a comical sailor, as well as the acting of some minor roles, do nothing to help. Still, Miss Bergman is an authentic star, and she shines in a way that will please her multitude of admirers.

* * *

Other new plays of note in London:

"After Haggerty," by David Mercer, at the Criterion. A major triumph, moving and witty. The problem of an ineffectual left-wing critic who cannot translate his revolutionary feelings into action or resolve his unsatisfactory relationship with his class-bound father. The acting is excellent, with a faultless performance from Leslie Sands as the *monstrous old man*.

"Flash Gordon and the Angels," by David Zane Mairowitz, at the Open Space, promises more than it delivers, and is not as interesting as the long introductory screening of a 1930s Flash Gordon film. The comic book hero is updated to provide a satire on modern astronauts, with their impoverished imaginations.

400 works from all points rtistic compass: op, ab- old-style landscape, neo-surrealism, trompe l'oeil and various forms of expressionism, are to be seen, so both the old guard and the avant-garde are represented. There is a good amount of trash but also enough serious art to make the visit informative.

* * *

Kimura, Galerie Kriegel, 36 Avenue Matignon, Paris, to March 20.

The canvases of Tahuta Kimura, a Japanese artist living in Paris, give a first impression of being abstract but are in fact landscapes done in a thoroughly sophisticated but apparently childish style. Pinks and mauves that a Bonnard once applied in small strokes are used by Kimura on larger surfaces. The effect is elegant, unsentimental and perhaps a bit sweet to the tooth.

—MICHAEL GIBSON

Dali Museum To Open in Ohio

NEW YORK, Feb. 26 (AP).—Salvador Dali, the Spanish surrealist, says that the opening March 7 of the Dali Museum in Beachwood, Ohio, "will be a historic day.

"It will be a portrait of Dali," said the artist, appearing at a news conference with Cleveland industrialist A. Reynolds Morse, builder of the museum and owner of some 400 Dalis to go on display.

Dali said the museum would be the first in the United States given over to the works of a single, living artist.

Greater future income can be the goal of a $5,000 portfolio placed under management now

If the money you have today is to grow in the future toward more income, or for education, travel, leisure, retirement, it must be kept working full time to achieve your goals.

Yet you may find that you are actually losing ground due to inflation, taxes or lack of time for investment decisions.

To help solve this problem, clients in 55 countries have turned to The Danforth Associates Investment Management Plan. It has, we believe, proved especially efficient in providing continuing capital growth supervision for portfolios of from $5,000 to $50,000—on behalf of people who recognize and can share the risks and rewards of common stock investments. The cost is modest, as low as $100 per year.

For a complimentary copy of a 42-page report describing this tested plan, its complete 10-year "performance record," and how it may help you now, simply write Dept. 0-4.

MAD INTERNATIONAL FUND

Société Anonyme Holding en Liquidation

Siège social: Luxembourg

Notice to Shareholders

The shareholders of our Company are invited to take part in an extraordinary general meeting which will be held in accordance with article 151 of the act of 10th August, 1915, concerning trade companies in the registered office in Luxembourg, 23 Avenue de la Porte-Neuve, on Monday 8th March, 1971, with the following agenda:

1) Report of the liquidators.
2) Appointing of an auditor.
3) Date of the meeting for the closing of liquidation (proposed date March 29th, 1971).

The report of the liquidators and the accounting documents will be deposited at the registered office of the Company, where the shareholders may inspect them from the 1st March, 1971 on.

In order to attend the meeting, holders of bearer shares should deposit their shares on or before the 4th March, 1971 with Banque de Paris et des Pays-Bas pour le Grand-Duché de Luxembourg, 23 Avenue de la Porte-Neuve in Luxembourg. Instead of a deposit of bearer shares, shareholders should deposit their receipt delivered by the financial institutions entitled to proceed to the exchange operation, as mentioned in the notice to shareholders of 16th December, 1970 (Memorial C No. 211 of 23 December, 1970).

In the case of registered shareholders, proxies should be deposited on or before the 4th March, 1971 at the registered office of the fund, or at the offices of the following financial institutions:

— Banque de Paris et des Pays-Bas pour le Grand-Duché de Luxembourg, 10A, Boulevard Royal, Luxembourg.
— Banca Commerciale Italiana, 6 Piazza della Scala, Milano, and in all its branches in Italy.
— Banca della Svizzera Italiana, 6 Piazza Alessandro Manzoni, Lugano.
— Banque de Paris et des Pays-Bas, 3 Rue d'Antin, Paris.
— Banque de Paris et des Pays-Bas, 6 Rue de Hollande, Geneva.

Luxembourg, 15 February, 1971.

The board of liquidators:

Ernest ARENDT, Charles MONTBRUN, Georges KIOES.

PARIS, SATURDAY-SUNDAY, FEBRUARY 27-28, 1971

Trade Surplus Narrows in U.S.

ASHINGTON, Feb. 26 (AP-—The U.S. foreign trade surfell to a seasonally-adjusted million in January, the smalmonthly surplus in 19 months, Commerce Department reportday.

e surplus of exports over imlast month was down from revised $165.9 million surplus ecember, and the $182.6 mil-surplus a year earlier.

January Account At 19-Month Low

It was the smallest monthly trade surplus since the $27.2 million in June 1969, officials said.

The department revised all of its back trade balance figures, basing them on new seasonally-adjusted factors, officials said.

With these revisions, the trade surplus for all of 1970 totaled $2.783 billion, instead of $2.698 billion initially indicated.

In January, imports rose more sharply than exports, the report said. Exports were $3.735 billion, up 4.6 percent from $3.570 billion in December, and ahead of the year-earlier $3.405 billion.

Imports Up 8.3%

Imports in January were $3.686 billion, up 8.3 percent from December's $3.404 billion, and more than the $3.223 billion in the year-earlier month.

The department said both exports and imports set all-time records in January.

The previous export record, set last June, was eclipsed by $5.2 million. The import figure exceeded the previous record, set last October, by $185.8 million.

Export Average Sags

For the four-month period ending in January, seasonally-adjusted exports averaged $3.62 billion a month, about 1 percent less than the previous four-month period.

Imports averaged $3.50 billion during the four-month period, about 5 percent more than the preceding four months.

.Y. Fed in German Market rying to Curb Dollar Flow

By Philip Greer

W YORK, Feb. 26 (WP).—Federal Reserve Bank of New has begun to intervene in German money markets in ttempt to reduce the flow of s into that country.

ording to reports from con-tal bankers, the New York which acts as agent for the Treasury in foreign exchange ags, has been selling West an marks for future delivery the past few days. That tends ake it more expensive to buy s for dollars.

e taker of the contract on " marks pays with dollars, ng the demand for, and the of, the dollar higher.

selling for delivery in three ths, however, it does not imately reduce the Fed's supply arks.

No Fed Comment

ficials of the bank here refuse always, comment on their ities. But the reports reflect oncern that has been mount-t the Fed over the outflow of rs from this country to for-markets and the effect that t have on the U.S. balance ayments.

e drop in interest rates—the e lending rate at U.S. comial banks has been cut nine since November—has pegged -term rates here below those many other countries. West nany, with high rates and ing a building inflation, has been trying to control the inflow of funds. The Fed action taken would siphon off some of the Eurodollars that have moved into that country.

The U.S. balance of payments has moved into the background over the past year or so, primarily because of the U.S. domestic problems of inflation and unemployment. Some U.S. economists, in fact, have argued that American monetary authorities should not worry about the balance of payments until domestic conditions improve.

But according to sources here, monetary and banking authorities have become increasingly concerned about the deteriorating payments situation. With some European countries battling their own inflation problems and trying to reduce the inflow of money, they should not be asked to absorb the dollars that move out of this country.

The sources warn that foreign central banks, which ultimately hold the dollars, will not be willing to take in American deficits indefinitely, a point of view Europeans have been pressing more and more vocally.

Connally Will Probe Case Of Lockheed

WASHINGTON, Feb. 26 (AP-DJ).—President Nixon has placed Treasury Secretary John Connally personally in charge of any U.S. government role in the case of financially-troubled Lockheed Aircraft Corp., it was learned today.

The designation of Mr. Connally to oversee the government's examination of the situation and of possible action came only a few days ago, it is understood, indicating that the government's up-and-down interest in the matter is on the upswing again.

There is still no assurance that any federal action will be taken, sources said. But if the government had decided firmly against involvement, some note, the President would not have had to place anyone in charge, much less a man regarded as a rapidly-rising cabinet strongman.

Picking Mr. Connally also is seen as suggesting that the administration may have to ask Congress for funds or legislation, as Mr. Connally has been demonstrating great rapport with the lawmakers at various committee hearings in the past week.

The assignment is an uncomfortable one, they add, as the administration is sure to be criticized sharply either for bailing out the aircraft company or for inaction which might contribute to its failure.

Hungary Sets Eye on West's Capital Mart

By Wayne Lintott

ONDON, Feb. 26 (AP-DJ).—gary is planning a return to tern capital markets, it was ed today.

ecutives of National Westter Bank are to fly to Budaearly next week to conclude igements for a straight-debt bond issue.

is believed to be the first East pean country to raise long-funds in the public international bond market since before d War II.

issue is to be managed by underwriters. A bank from nmunist country is expected included. Underwriters have y sounded out certain banks ermine reception of the plan-sue.

offering is expected to be e form of a 15-year issue g about $25 million.

e Eurobond market dealers the bonds are not likely to l received in the secondary because of the risk factor ted with Communist coun-

gary is following the lead of avia in entering the Western market. Yugoslavia has ly placed some medium-term in the West.

reaction to the issue from ued investment banks will aited eagerly, dealers note, because some old Hungarian re outstanding in New York. anks are not expected to be d in the group of leading ers.

* * *

Michel Sellak, vice-president of Security Pacific National Bank of California, will head the bank's newly opened representative office in Paris.

* * *

Clark International has appointed **T.H. Clark** as general manager of its West German-based Central Parts organization.

Bullion Firm Plans Action On Bad Debt

LONDON, Feb. 26 (AP-DJ).—Johnson Matthey and Co. reported today a 16 percent slide in net nine-month profits, despite a 25 percent revenue gain, and said it was taking legal action against the Swiss firm which failed to pay £4 million on a silver transaction.

The firm, identified only today, is Amerint AG, of Glarus, Switzerland. The action will be taken against both the company and its principal shareholders Johnson Matthey noted that the extent of its loss on the bad debt will not be known until the proceedings have been concluded.

The London precious metal refiner and fabricator said profits in the nine months ended Dec. 31 fell to £2.39 million ($5.74 million) and that it expected net for the final quarter of the fiscal year to fall short of the year-earlier level.

Revenue, however, jumped to £137.07 million from £109.97 million in the year-ago nine months.

Swiss Credit Bank

ZURICH, Feb. 26 (AP-DJ).—Swiss Credit Bank's net 1970 profits rose 10 percent to 115.7 million Swiss francs ($26.8 million) from the year before's 104.9 million SF.

Total assets climbed to 28.03 billion SF from 20.89 billion SF at end 1969.

The bank said that for the first time it included fiduciary Eurodollar accounts in the 1970 balance sheet total, but an itemized breakdown was not immediately available.

Amro Earnings

AMSTERDAM, Feb. 26 (Reuters).—Amsterdam-Rotterdam Bank NV said net profit rose 7 percent to 70.2 million guilders ($19.4 million) last year from 68.2 million in 1969.

Management also said it expects first-half results this year will be better than in the first half of 1970, when net profit fell to 27.7 million guilders from 30.9 million in the 1969 period.

Penn Central Refinancing Swiss Notes

In Apparent Attempt To Avoid Bankruptcy

NEW YORK, Feb. 26 (AP-DJ).—Penn Central Co., in an attempt to avoid following its Penn Central Transportation Co. subsidiary into bankruptcy proceedings, indicated yesterday it reached agreement with creditors to refinance a $59 million Swiss franc loan.

About $28 million of the promissory notes, written by a subsidiary company and guaranteed by Penn Central Co., came due a week ago and had remained unpaid as of this week. Penn Central spokesmen said the parent company itself faced bankruptcy proceedings.

Under the refinancing agreement, noteholders agreed to accept $8 million in cash and $50.25 million of notes maturing on June 1. At the annual meeting, scheduled for May 26, stockholders will be asked to approve a plan whereby the new notes will be exchanged for 15-year 10 percent notes convertible into Penn Central common at $7.16.

Penn Central also said it agreed to the rescission of the company's acquisition early last year of Southwestern Oil & Refining Co. and Royal Petroleum Corp. The rescission had been sought by former stockholders of the two companies, who said they had sold the companies on the basis of materially false information.

The settlement calls for return of the stock of the two companies to their former owners in exchange for 400,000 Penn Central preference shares issued in the transaction and a $2.5 million "cash dividend." Of that amount, $1.2 million will be paid to trustees of Penn Central Transportation Co. as reimbursement for certain tax benefits and for performing stock transfer functions for the parent concern.

NEWS AND NOTES

Freeze in Denmark

Denmark's price freeze has been extended indefinitely by the Folketing (parliament). The freeze came into effect last Sept. 22 and had been due to expire on March 1. The extension is to allow for the conclusion of new wage contracts between the trade union confederation and the employers' federation.

Israeli Chemical Plans

Israel will spend $450 million on a five-year plan to develop its chemical industries, Finance Minister Pinhas Sapir reports. The industry made an $85 million profit in 1970, and this figure, he added, would reach $300 million when the five-year plan was completed.

Japan's Special Loans

The Japanese government has decided to make available an extra 19.5 billion yen ($54 million) during the remainder of the current fiscal year ending March 31 for loans to small—and medium—sized companies. The move was made primarily to help the textile industry voluntarily restrict its exports to the United States.

Lambert Group Move

Belgium's Lambert group has acquired almost all the shares of Banque Commerciale de Lausanne and changed the Swiss bank's name to Banque Lambert (Suisse) SA. The group has had a majority holding in the Swiss bank since 1963.

Republic Corp. Sued

Newport Western Inc. says it has filed suit seeking more than $16 million against Republic Corp., alleging breach of written contract and fraud. The complaint refers to a 1970 agreement for Newport to purchase several companies from Republic, charging that Republic refused to complete the move. Spokesmen for Republic said the agreement was terminated "when it became clear that certain conditions relating to the financial, legal and other affairs of Newport Western could not be met."

Boeing Doubles Earnings; Order Levels Depressed

SEATTLE, Wash, Feb. 26 (Reuters).—Boeing Co. reported today that 1970 profits more than doubled those of 1969, and that operating results had returned to the black for the latest year.

Profits for 1970 totaled $22.09 million, or $1.02 a share, compared with $10.2 million, or 47 cents a share, in 1969. In both years, tax credit amortization amounted to about $17 million, meaning that earnings from the aerospace firm's operations amounted to $4.79 million in 1970, versus a loss of $6.8 million a year earlier.

Revenue last year rose to $3.66 billion from $2.84 billion.

Boeing said its order backlog for commercial aircraft at the end of 1970 was $2.7 billion down from $4.7 billion in December, 1969, primarily because of low volume of new orders for the 747. Deliveries of all its models exceeded new orders during the year.

It attributed the low level of 1970 earnings to a number of factors, including substantially lower deliveries of planes, reduced government sales, inflation, commercial program write-offs, high interest rates and costs of introducing the 747.

Boeing reported that its missile order and space backlog dropped to $204 million in 1970 from $229 million in 1969. Military aircraft backlog was down to $149 million from $256 million in 1969.

French Firms Set Greek Auto Project

ATHENS, Feb. 26 (Reuters).—An automobile industry will be established in Greece by France's Peugeot and Renault firms, it was officially announced last night.

A government communiqué said the French companies would manufacture 15,000 cars annually in the initial stages, to be increased gradually to 75,000 cars a year.

Earlier this year, negotiations with Japan's Toyota, Austria's Daimler and Holland's DAF were reported. A delegation from West Germany's Volkswagen submitted a proposal to Greek authorities this week which is believed to be still under consideration.

There were no estimates available on how much the French companies would invest in the Greek project. Some 83 percent of the components to be used will be made in Greece while the rest will be imported, the announcement said.

VW Interested

WOLFSBURG, West Germany, Feb. 26 (AP).—A VW spokesman said today its three-man delegation had talks with Nicholas Makarezos, Greek Minister for Economic Coordination, pointing out VW's "keen interest" in setting up an auto plant in Greece.

The spokesman declined to elaborate on details of the talks. He said that "the next step is up to the Greek government. We are interested."

Nixon Nominee to SEC Post Is Defendant in '65 Civil Suit

WASHINGTON, Feb. 26 (UPI).—William J. Casey, President Nixon's nominee for chairman of the Securities and Exchange Commission, was accused in a civil suit filed in 1965 of violating federal securities laws in connection with a corporate merger deal, according to Business Week magazine.

Sen. William Proxmire, D., Wis., a critic of the proposed appointment of the New York tax lawyer, is studying the details of the suit filed in New Orleans, a spokesman for the senator said.

Earlier this month, Sen. Proxmire demanded that the Senate Banking Committee reopen hearings on the nomination following disclosure that Mr. Casey settled out of court for $8,000 a civil suit accusing him of selling unregistered stock.

The committee, of which Sen. Proxmire is a senior member, had approved the nomination after a brief hearing, but is expected to reopen the investigation to consider charges made in the two lawsuits.

Business Week said the second suit was still pending but quoted Mr. Casey as describing the action as "dormant." The magazine also quoted a spokesman for McKenzie & Bear, a Dallas law firm representing the plaintiffs, as saying that no action had been taken in "the past year or so."

The suit was filed by Kalvar Corp. stockholders. They charged Mr. Casey, then chairman of the firm's executive committee, and other officers of paying an inflated price for stock of Standard Office Systems Inc.

The suit first sought to block the Kalvar-SOS merger. When the deal was consummated, the suit was amended to demand damages from Mr. Casey and other defendants.

In 1962, Mr. Casey was accused in a civil suit of selling unregistered stock in a now defunct firm called Advancement Devices Inc. A purchaser filed the suit in an effort to recover $10,000 which he said he lost. Mr. Casey said he agreed to the $8,000 settlement to get rid of "a nuisance suit."

BP and Shell Reject Japanese Requests

TOKYO, Feb. 26 (AP-DJ).—British Petroleum and the Royal Dutch/Shell group rejected today the Japanese petroleum industry's request for a reduction in the announced increase in the cost of crude oil and a postponement of the effective date of the price increase, officials of the Petroleum Federation of Japan said.

The officials said five other Western oil firms are expected to serve similar notices to the federation soon.

The Japanese refiners presented the request to the seven Western concerns after they were notified of higher prices retroactive to Feb. 15 for crude oil produced in the Persian Gulf.

U.K. to Prolong Financing for Rolls

LONDON, Feb. 26.—Arrangements are being made to prolong government financing of the Rolls-Royce RB-211 engine project past the scheduled March 6 expiration date of the financing, Aviation Minister Frederick Corfield confirmed today.

Mr. Corfield made the announcement in the House of Commons.

It had been reported after yesterday's cabinet meeting on the Rolls problem that financing would be continued for a limited period if next week's crucial negotiations with Lockheed Aircraft Corp. prove hopeful.

Hanging on Talks

Informed sources report that an extension of the government's earlier four-week reprieve to keep the engine project alive poses no great difficulty.

But any British decision in the final analysis depends very much on the extent and character of concessions Lockheed is prepared to offer toward renegotiation of its 1968 contract with Rolls-Royce.

Lockheed chairman Daniel J. Haughton is due in London Tuesday for talks with Lord Carrington, British Defense Minister, and Frederick Corfield, Minister for Aviation Supply.

Deadline Near

After the now nationalized Rolls-Royce went bust three weeks ago, the government agreed to keep the RB-211 assembly line open for one month. That deadline runs out one week from Friday.

However, it is understood that the government will allow development work on the engine to continue an extra two weeks, assuming new negotiations point to a way out of the crisis.

The government's willingness to extend the reprieve was seen in aircraft circles here as an encouraging sign. But qualified sources close to the British position insist, as they did when Rolls-Royce collapsed, that the chances of salvaging the RB-211 remain at best a "long-shot" possibility.

These sources also believe that next week's talks are unlikely to reach any hard or final decisions on the fate of the engine program.

Lockheed Payment

BURBANK, Calif., Feb. 26 (Reuters).—Lockheed Aircraft Corp. said today the U.S. Navy has made a $20 million payment on an agreement to settle Lockheed's ship construction claims.

Lockheed earlier this month reported that the Navy had tentatively agreed to resolve its shipyard claims for a total of $62 million. There was no immediate indication of when or whether the remainder would be paid.

Rolls Chairman Sets U.S. Visit

LONDON, Feb. 26 (UPI).—Lord Cole, chairman of the nationalized Rolls-Royce group, today scheduled a secretive visit to the United States apparently to discuss the future of the Rolls-Royce RB-211 jet engine project.

British Overseas Airways Corp. said Lord Cole is booked on a flight to New York tomorrow. A spokesman for Rolls-Royce declined to comment on the reason for the trip and said he did not know Lord Cole was flying to America.

Sources close to Rolls said Lord Cole probably would meet with officials of Lockheed Aircraft Corp. But in California, a Lockheed spokesman said no such talks have been scheduled.

Glen Alden to Buy Schenley

NEW YORK, Feb. 26 (NYT).—Schenley Industries announced yesterday that its board of directors has approved an offer from Glen Alden, which now owns 86 percent of Schenley common stock, to acquire the remainder of the liquor producer's 35 shares.

In another development, the Justice Department filed a proposed consent order requiring Schenley to divest itself of its stock ownership in Buckingham Corp.

Under the Glen Alden proposal, holders of the outstanding Schenley common stock, other than Glen Alden, will receive $5 in cash and $30 principal amount of new 7 1/2 percent, 15-year Glen Alden senior subordinated debenture for each share of Schenley common.

Holders of the 2.53 million shares of Schenley $1.40 preferred stock will receive $4.50 in cash and $27 principal amount of such debentures. The Schenley cumulative stock, of which there are 197,108 shares, will remain unchanged.

The transaction is subject to the execution of a definitive agreement and to approval of regulatory agencies, lending institutions and Schenley shareholders.

Settling Suit

The government's consent order would conclude a civil suit it filed in 1966, charging that Schenley's acquisition of 52.6 percent of Buckingham in 1964 violated federal anti-trust laws.

Schenley has already agreed to sell the stock of Buckingham, the exclusive U.S. distributor of Cutty Sark scotch whisky, to Northwest Industries for $120 million. Schenley paid $32.9 million for the majority interest in Buckingham.

National Steel Hit By Anti-Trust Suit

WASHINGTON, Feb. 26 (AP-DJ).—The Justice Department today filed a civil anti-trust suit charging National Steel Corp. with using reciprocal purchasing arrangements with supplies and customers.

The suit charged the nation's fourth-largest steel producer with entering into combinations with various suppliers since 1964 in order to restrain trade by reciprocating purchases.

A Late Rally Cuts Decline On Big Boar

Softness Aggravate By Libyan Rumors

NEW YORK, Feb. 26 (AP-D Prices on the New York Exchange declined today in analysts said was a readjustme strong gains made in the last months.

At the close, the market however, recovered most of losses made earlier in the se At one point, the Dow Jones in trial average had been down than 9 points. It closed down at 876.83.

Analysts said the mid se softness was aggravated by re that diplomatic sources said was preparing a takeover of cent seizure. Oil stocks fell sh ly following these reports. But firmed when later reports said takeover news could be a mane to influence negotiations to crude prices.

Among the other Libyan Jersey Standard closed at 75 down 3/4 after trading as low 73 3/8; California Standard off 7/8 at 54 7/8 and had down 2 1/8; Amerada Hess fir ed off 1 1/2 at 51 and was nearly 4 earlier, and Mobil, wh had been off more than a po closed at 54 1/2, down 1/2.

Occidental, halted at 18 down 2 1/4, did not resume trad however.

Analysts also expected market to continue the cur phase of readjustment before ing again.

Declines led advances by ne 2 to 1 in the heaviest trading of week—17.25 million shares, c pared to 16.2 million yesterda

Burnham & Co's Philip Cl noted that "it doesn't matter the list sells off as it did morning because the trend is He said the market is respond more to "technical factors rat than to external news."

Continental Oil Eases

Continental Oil, which gai 1 1/4 yesterday, reflecting its p ger negotiations with Burmah lost 1 1/2 to 33 1/2.

Utilities topped the active Public Service of Colorado, bolst ed by block of 350,000 shares, t ped the list and finished unchan at 22.

Southern California Edison second and eased 1/2 to 32. Pac Gas & Electric was third and up 1/8 at 31 3/4.

Southdown had higher earnin and rose 3/4 to 37 5/8. Deltec s it widened its quarterly loss fr a year ago and it eased 3/8 6 3/8.

Alaska Interstate tacked on to 23 3/4 after listing improv earnings.

Burroughs was off 1 at 107 after losing more than 6 yest day.

Among the other glamours, IB gained 3 1/2 to 336 1/2. Avon Pr ducts lost 2 to 91 1/4, Honeyw eased 1 3/4 to 97 3/4. Xerox gain 1 1/4 to 96 1/4 and Polaroid gain 1 1/4 to 84 1/4.

On the American Stock Exchan prices closed lower in modera trading. The index lost .05 to 25.

Syntex, which reported high profits, was the most actively trad issue and gained 1 1/8 to 48 3/

Transogram Bankrupt

NEW YORK, Feb. 26 (Reuters —Transogram Co. said it ha filed a petition under Chapter 11 the federal bankruptcy law. said it had no immediate prospe for financing and the petition w filed in order to head off in dependent action by creditors.

This advertisement is published for the information of existing debenture holders only and does not constitute an offer for sale.
UNEXCELLED
INTERNATIONAL N.V.

PHYSICS AND BEYOND: Encounters and Conversations

By Werner Heisenberg. Translated by Arnold J. Pomerans. Harper & Row. 247 pp. $7.95.

Reviewed by David Park

THE philosopher and logician Hans Reichenbach once wrote that the keys to the great philosophical problems will finally be found in the equations of mathematical physics. The ordinary reader is unlikely to believe this claim, and to the scientist, especially the physicist, it only shows how far apart science and philosophy have drifted. For the equations, *though they may be* hard indeed to solve, are (in general) short, neat and unambiguous. The philosophical content lies not in them but in the verbal commentary which relates the formal mathematical results to the terms of ordinary human experience.

The hardest questions of physics are questions of meaning rather than of mathematics or logic, and it is in this area that the greatest battles have been fought and the greatest triumphs won. Einstein, Bohr and Heisenberg, who created the central ideas of modern physical theory, will be remembered largely for what they have established about the relation of our concepts to our experience. By trial and error, often by guessing equations, finding that they are right and then pondering what they may mean, physicists have made progress—perhaps not toward an ideal and perfect truth but at least toward a more modest goal of clarity and reasonableness and harmony with what seem to be universal aspects of human experience.

If one of the central problems of modern physics is to express its formal content in ordinary language, it is natural that most of those who have helped to solve these problems have gone a step further and tried to explain them to ordinary readers. Heisenberg is the founder of the modern atomic theory known as quantum mechanics and the author of the principle of indeterminacy, which states that if quantum mechanics gives a correct description of nature, then there are simple questions that we can never answer and simple events that we can never predict. His new book is aimed at a wide audience and proposes to engage each reader on his own grounds of interest by the strategy of organizing it around conversations from various periods in his life. In the beginning he reassures us with Thucydides' words:

> Now, in what concerns these orations... I have found it impossible to remember their exact wording. Hence I have made each orator speak as, in my opinion, he would have done in the circumstances, but keeping as close as I could to the train of thought that guided his actual speech.

The 20 dialogues that follow are arranged chronologically and deal with Heisenberg's intellectual and political life, his music and his friends and his love of the outdoors over half a century.

The dialogues' recurring theme is the idea of an atom, and the extraordinary subtleties which arise when one attempts to organize one's ideas around an entity which by its very nature defies a direct experimental study, whose basic properties must therefore largely be invented rather than observed. To ask how much freedom we have in this invention, and to what extent we are restricted to the discovery of a natural order that exists independently of ourselves, is the fundamental philosophical question of modern atomic physics.

Heisenberg as a schoolboy argues it with his friends on long walks in the Bavarian mountains. As a young man he discusses it with Einstein in more sophisticated terms. Einstein wishes to divide nature into ides and object, however subtly they may be connected; Heisenberg is willing to admit that

> if nature leads us to mathematical forms of great simplicity and beauty... to forms that no one has previously encountered, we cannot help thinking that they are "true," that they reveal a genuine feature of nature.

Heisenberg and his friends talk of myth and language, of religion, of the network of implications that is set into resonance when someone says "There is a God." He speaks of politics and World War II and gives his answer to those who have criticized him for staying in Germany when Hitler came, and even directing the German nuclear program during the war. It will surprise some to learn that the effort was a modest one, that Hitler never ordered a bomb nor did anyone in Germany think of it as a possibility, and when Heisenberg asks "are we entitled to build atom bombs for a good cause but not for a bad one?" it is a question that might well have been discussed in responsible circles in this country more than, as I remember, it ever was.

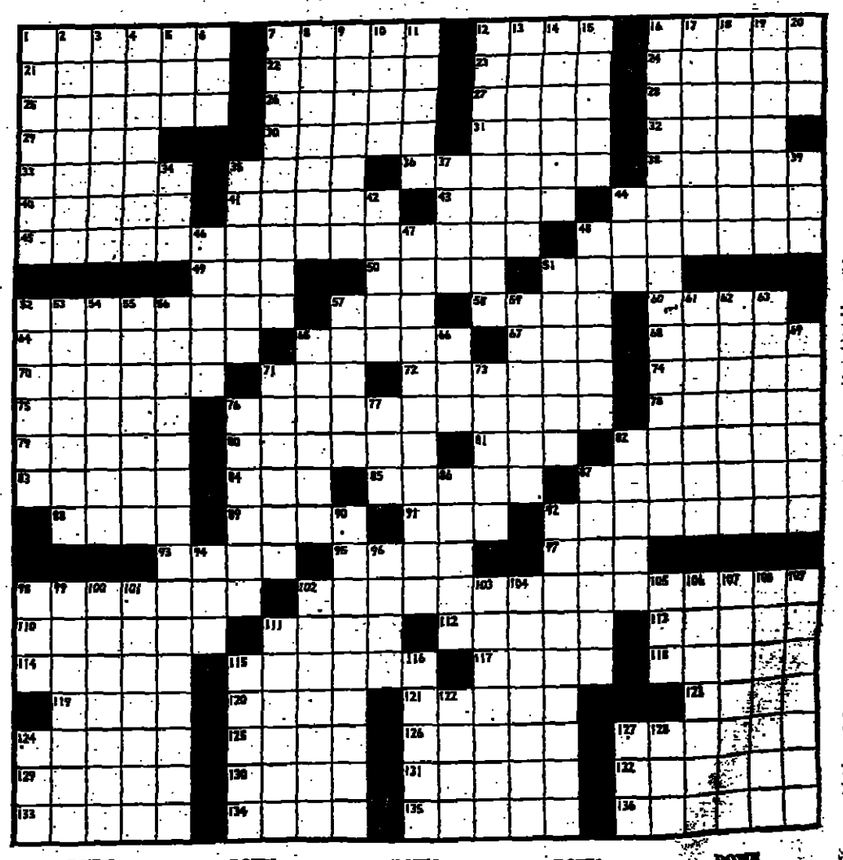

In German, Heisenberg's style has a Hellenic clarity that reflects his classical education. The English translator is familiar with Heisenberg's kind of thinking and the discussions read well except for an attempt to reproduce a conversational tone by filling the speakers' mouths with clichés—theories collapse like a house of cards, people bark up the wrong tree, there is even that bromide of the after-dinner speech, "without further ado." I am not claiming that the language of intellectuals is always fresh and vigorous, but in this case it would have been a favor to the English speaking reader to pretend that it is.

David Park, professor of physics at Williams College, wrote this review for Book World, literary supplement of The Washington Post.

Cochran ies to Her Victory

ss Proell Fails Clinch Cup

TH LAKE TAHOE, Calif., S (AP).—Barbara Cochran mond, Vt., swept the wo- rents of the World Cup ski at Heavenly Valley by the giant slalom today on remely icy and fast course. leader in the standings, larie Proell of Austria, was the many racers who did ish or was disqualified after gates. Michele Jacot of second in the standings, is disqualified.

Proell, with 181 points, have clinched the women's onship by finishing third er. Miss Jacot has 158 points into the last three races of ries, scheduled for next in Italy and Sweden.

e most of the leaders in the indings were either falling ing gates—46 girls did not both runs—down the 44-gate with a vertical drop of 1,200 er a 3,100-foot length, Miss maintained her balance uposure to pick up 25 World ints and moved from ninth nto eighth with a total of 90.

as really fast and so slick u had to let your skis run," a said. "Some of the girls edge and they went past r fell. It was not an easy any means." U.S. women's Hank Tauber set the course.

n Budge of Jackson Hole, ng, took second place with of 1:10.08 and third place o Isabelle Mir of France in

Miss Mir picked up 15 Cup points for her third finish and now has 131 for place.

th place went to Britt Laf- of France in 1:11.82; fifth inika Kaserer of Austria in

United Press International.

BALANCED ATTACK—Gustavo Thoeni of Italy barely keeps his feet as he crosses finish line en route to winning slalom race.

1:12.73; Marilyn Cochran, Barbara's 21-year-old sister, was sixth in 1:13.00; Berni Rauter of Austria was seventh in 1:13.27; Wiltrud Drexel of Austria was eighth in 1:13.40; Susan Corrock of Ketchum, Idaho, was ninth in 1:14.00 and Judy Crawford of Canada was tenth in 1:14.01.

Gustavo Thoeni of Italy continued to dominate the men's competition, recording 1:36.71 for the first run, through 44 gates in the giant slalom, which will be completed witth a second run tomorrow.

Christian Neureuther of West Germany, runner-up to Thoeni in yesterday's slalom, was lying second with a time of 1:38.90.

WOMEN'S GIANT SLALOM

1. Barbara Cochran, Richmond, Vt.	1:09.44
2. Karen Budge, Jackson Hole, Wyo.	1:10.08
3. Isabelle Mir, France	1:11.44
4. Britt Lafforgue, France	1:11.82
5. Monika Kaserer, Aus.	1:12.73
6. Marilyn Cochran, Richmond, Vt.	1:13.00
7. Berni Rauter, Aus.	1:13.27
8. Wiltrud Drexel, Aus.	1:13.40
9 Susan Corrock, Ketchum, Idaho	1:14.00
10. Judy Crawford, Canada	1:14.01

Henri Duvillard of France, the only one with a chance of overtaking Thoeni for the men's World Cup, was third with a time of 1:39.80.

Thoeni has 145 World Cup points and could virtually clinch the championship by winning the event tomorrow. Patrick Russel of France, third with 125 points, was disqualified for missing a gate Friday.

MEN'S CUP STANDINGS

	Pts.
1. Gustavo Thoeni, Italy	145
2. Henri Duvillard, France	130
3. Patrick Russel, France	125
4. J.-N. Augert, France	107
5. Bernhard Russi, Switz.	95
6. Edmund Bruggman, Switz.	85
7. Bernard Orcel, France	63
8. David Zwilling, Aus.	62
9. Tyler Palmer, Kearsarge, N.H.	60
10 Karl Schranz, Aus.	57

MEN'S SLALOM

1. Gustavo Thoeni, Italy	1:44.82 (48.63, 56.06)
2. Christian Neureuther, West Ger.	1:45.56 (49.90, 55.66)
3. Tyler Palmer, Kearsarge, N.H.	1:46.62 (50.18, 56.44)
4 David Zwilling, Austria	1:46.90 (49.69, 57.21)
5. Henri Duvillard, France	1:47.05 (50.27, 56.78)

Miss Holmes Still 2d

Miss Schuba Extends Figure Advantage

By Michael Brandt

LYONS, Feb. 26.—Beatrix Schuba of Austria virtually clinched the women's title at the world figure-skating championships today by almost doubling her lead over second-place Julie Lynn Holmes of South Pasadena, Calif., who reads the scriptures before performing and now must read the writing on the wall.

Miss Holmes is the only one of the 22 entrants from 14 nations that has a remote chance to catch the European champion, who added 43.8 points to her lead on today's backward paragraph loop and forward paragraph bracket, the last two of the six compulsory figures. Miss Schuba has 1,263 points and 9 ordinals to Miss Holmes's 1,173.3 and 19.5. The 89.7-point margin is a much larger lead than the 60 to 70 points the 20-year-old from Vienna predicted yesterday as a safe margin for victory after the school figures.

Third-place Rita Trapanese of Italy is 49.7 points and 11 ordinals behind Miss Holmes at 1,123.6 and 30.5, followed by North American champion Karen Magnussen of Vancouver, B.C., at 1,124.2 and 32 and U.S. titlist Janet Lynn of Rockford, Ill., at 1,090 and 50.5.

Dark-haired, dark-eyed Miss Holmes, usually ebullient and smiling, stood alone and silent before her last compulsory, engrossed in biblical quotations. When she had finished skating, and the laughter returned, she explained, "I always read (the Bible) before I go on the ice." She particularly likes the psalms.

High Hopes

She will have to depend on faith and hope tomorrow night in the free-skating final, for the charity of the judges does not seem to be directed toward Americans. In Miss Schuba, she is facing the second-place finisher in the last two world championships, behind retired Gabriele Seyfert of East Germany. Miss Schuba, excellent in the school figures but weaker in the free skating, led Miss Seyfert last year at Ljubljana, Yugoslavia, after the compulsories by 24.1 points and third-place Miss Holmes by 82.1.

Miss Seyfert won by a margin of 79.4 points, but Miss Holmes remained third, picking up just 13.5 points in the free skating. In 1969 at Colorado Springs, Miss Schuba also lost after leading in the compulsories, with Miss Holmes finishing fourth.

"Nothing is impossible," said Miss Holmes. "The main thing is that I skate my best." She will stay with the same music for tomorrow night's final program—from the ballet "Giselle"—but some of the jumps have been changed and an innovation added—a double inside axel—which she says has never before been done. In the beginning, she will execute two double axels and a double flip.

Miss Schuba also changed part of her program, adding more jump combinations. She could play it safe, but said, "I don't want to take it easy." She will do the double loop on which she fell in the European championships at Zurich almost three weeks ago.

So school is out and the arithmetic seems to be elementary. However, it is a testament to Miss Holmes's belief in herself that she still feels she can take it all. "Of course there is nervousness before I go on the ice," said the 19-year-old. "But after my reading, I don't feel alone out there." She pointed to a quote:

The Kingdom of God is within you.
Luke 17:21.

"It wipes out all fear within me," she said, "I feel power filling me."

Free skating to the strains of a Latin medley from "Mondo Cane," the Russian ice dance pair of Ludmilla Pachomova and Alexander Gorshkov tonight retained the title they won last year at Ljubljana, Yugoslavia.

With classic grace and form, the duo repulsed a challenge from Judy Schwomeyer of Indianapolis and Pfc. James Sladky of Syracuse, N.Y., who were in second place after the compulsories. The U.S. couple, dancing to music from "Redhead," "Love Me With All Your Heart" and "Fiddler on the Roof," was placed third under a scoring system as esoteric as the voting of the judges, who again got their shares of catcalls, boos and jeers.

The West German brother-sister team of Angelika and Erich Buck came second although they trailed the Americans by 1.8 points and 1 ordinal. The system of scoring is very "sophisticated," and involves first, second and third place tallies in all events from the nine arbiters.

"Someday I would like to see all the Western judges vote together," Sladky said afterward.

DANCE FINAL

	Ord.	Pts.
1. Ludmilla Pachomova, Alexander Gorshkov, Russia	15.0	515.8
2. Angelika Buck, Erich Buck, W. Ger.	21.8	512.7
3. Judy Schwomeyer, Indianapolis, James Sladky, Syracuse, N.Y.	20.0	514.5
4. Susan Cseiky, Roy Bradshaw, Brit.	32.0	502.9
5. Tatiana Voitiuk, Vlacheslav Zhigalin, Russia	47.0	490.1

Women's Leaders

	Ord.	Pts.
1. Beatrix Schuba, Aus.	9.0	1,263.0

Associated Press.

RUGBY MEN—Claude Spanghero, with ball, and French teammates practice for today's Rugby Union match in Twickenham, England, against the English squad.

France Rugby Union Choice in England

TWICKENHAM, England, Feb. 26 (AP).—John Spencer, captain of the England Rugby Union team, nursed a hamstring injury today and was doubtful for tomorrow's game against France in the Five-Nations tournament here.

If the French win, they will go to the top of the standings and everything could then depend on their clash with Wales in Paris on March 27.

Spencer suffered his injury during training yesterday. If he cannot play, David Duckham may be moved into Spencer's place in the center, with reserve Peter Glover coming in on the wing.

The French are favored to win. The English admit they are a bit scared of the Spanghero brothers, who will play side by side in the French second row. Walter has a wealth of international experience and his brother, Claude, is playing for France for the first time.

England will rely heavily on fullback Bob Hiller and his kicking. It was Hiller, with three penalty goals, who created England's 9-6 victory over Ireland two weeks ago. And the French haven't forgotten that in 1969 when England defeated them, 22-8, Hiller kicked 13 points.

Conditions at Twickenham are expected to be dry and favorable for good runners. That should give France an advantage.

Another game is scheduled in the tournament tomorrow—between Scotland and Ireland at Murrayfield, Edinburgh. But neither the Scots nor the Irish have high hopes of winning the title.

England could still make a challenge for the title if they defeat France.

Wales at present leads the standings with four points. France has three points, England two, Ireland one and Scotland none—all having played two games.

Marquette Escapes From Fordham, 85-80

W YORK, Feb. 26 (NYT).—eated Marquette, ranked No. he nation, narrowly avoided cut down by Fordham, the killer, last night before beat- e Rams, 85-80, in an overtime that concluded one of the thrilling college basketball played in Madison Square n.

result was the Warriors 34th ht triumph over two seasons, 22d this winter and virtual ance that Fordham will join ette in the National Colle- Athletic Association championship when bids are extended next Tuesday.

In the first game of the doubleheader, Manhattan defeated Connecticut, 88-83, before a capacity crowd of 19,500.

Little Fordham suffered its second loss of the season in 23 games as its eight-game winning streak was snapped but its prestige was barely harmed.

When it was all over, coach Al McGuire of Marquette said, "That's the best coached team I've ever seen, and Fordham handled our press better than any team we've faced."

The teams waged a struggle of speed, total basketball skills, various defenses and tactics that kept the game close. It was 68-68, when regulation time ended. Then Marquette broke it with the first basket of overtime, by 6-11 Jim Chones, and remained in front as the Rams couldn't catch the Warriors.

Chones went on to score five more points in the overtime session and finished with 22.

Dean Meminger, Chones, Allie McGuire, the coach's son, and the others put together a game in which Marquette never panicked, though the Warriors must have been amazed by the smaller Rams' ability to stay even with them and even lead now and then.

Charlie Yelverton, Bill Mainor, Ken Charles and the whole Fordham group sped around, avoiding Marquette's full-court zone, and multiple defenses, and kept hitting the open shot.

Foul problems hampered the Rams as Yelverton, their 6-2 star, was forced to sit out ten minutes during the second half because he had drawn four personal fouls.

The Fordham-Marquette clash topped a relatively light schedule in which no other top ten teams saw action.

The Scoreboard

GOLF—At Manila, Japan's Tomoo Ishi shot a three-under-par 69 to take a one-stroke lead at the end of the first round of the 96,000 peso ($10,000) Philippine open, first leg of the 1971 Asia golf circuit. Ishi, a pro from the Nakayama Country Club, put together nines of 34 and 35 at the par-72 Wack Wack Golf and Country Club. Sharing second place with 70s were Ireneo "Boy" Legaspi and Ernesto Pinat of the Philippines and Thai golfer Sukree Onshuma.

Bob Begley, a circuit newcomer from the United States, Takashim Murakami of Japan and Eleuterio Nival of the Philippines had 72s.

TENNIS—At Macon, Georgia, top-seeded foreigner Ilie Nastase of Romania, advanced to the quarterfinals of the Macon international tournament along with top-seeded American Clark Graebner of New York. Nastase defeated fellow countryman Ion Tiriac, 7-6, 6-1, and Graebner beat Juan Gisbert of Spain, 7-5, 4-6, 6-2, to send seven of eight seeded players into the quarterfinals.

The only seeded casualty was Jim McManus of Berkeley, Calif., No. 8, who withdrew after spraining an ankle.

Nastase's quarterfinal opponent is Tom Edlefsen of the United States, who beat Haroun Rahim of Pakistan, 7-6, 3-6, 7-5. Graebner meets Tomas Koch of Brazil, a 5-7, 6-1, 6-4 victor over Jimmy Connors of the United States.

Jaime Pilliol beat Ingo Buding of Germany, 6-1, 6-3; Tom Gorman downed Mike Belkin of Canada, 6-2, 7-5; Zeljko Franulovic defeated Manuel Orantes of Spain, 6-4, 1-6, 7-5, and Edison Mandarino beat Jan Kukla of Czechoslovakia, 6-3, 6-2.

CYCLING—At Antwerp, Belgium, the Antwerp six-day race was won by the Dutch team of Peter Post, René Pijnen and Leo Duyndam, with 79 points. The team had been in the lead since the race started. Second was Jean-Pierre Monsere-Julien Stevens of Belgium and Graham Gilmore of Australia with 498. Third was Theo Verschueren-Walter Godefroot of Belgium and Sigi Renz of West Germany at 353.

Ali and Frazier Will Be Kept In Neutral Corners Till Fight

By Dave Anderson

NEW YORK, Feb. 26 (NYT).—Separate weigh-in rituals and separate prefight physical examinations were ordered yesterday for the Joe Frazier-Muhammad Ali heavyweight championship bout.

"Ali is a provocateur," said Edwin B. Dooley, the chairman of the New York State Athletic Commission. "It's better this way."

The weigh-ins will be held around noon on March 8, the day of the fight, with the boxers appearing about an hour apart. The physical examinations will be conducted next Wednesday, when both fighters will be in New York for the first time since each agreed to accept a $2.5-million fee for the multi-million-dollar match.

Frazier will be examined at 10:30 a.m. at the Felt Forum, with Ali to be checked at noon.

Ali, who has been training in Miami Beach, will arrive here Wednesday morning and will remain here to continue his preparations at the Felt Forum.

Frazier plans to return to Philadelphia, where he has been training, following the examination.

Dooley's edict was prompted by Ali's scene with Frazier at their contract-signing ceremony, as well as by Ali's similar scene with Oscar Bonavena at their physical examinations for their Dec. 7 bout. The weigh-in for that bout was conducted separately to avoid a confrontation.

Dooley threatened Ali with a $5,000 fine if conduct deemed detrimental occurred during his weigh-in for Bonavena or during the bout.

Dooley approved yesterday the closed-circuit television promoter's request for a tiny microphone on the referee. The referee has not been chosen; but experienced boxing observers consider Tony Perez to be the leading candidate.

Perez worked the Frazier-Jimmy Ellis bout at the Garden a year ago and the Ali-Jerry Quarry match in Atlanta last fall.

Dooley rejected plans for a microphone on each of the chief cornermen, Yancey Durham for Frazier and Angelo Dundee for Ali. He also turned down a request for a TV camera in each of the contestant's dressing rooms before the bout.

United Press International.

HEAVY FROSTING—Heavyweight champion Joe Frazier is covered with frost after recent early morning road work while training in Kiamesha Lake, N.Y.

Girl, 11, Wins Slalom

BUDAPEST, Feb. 26 (UPI).—An 11-year-old girl won the Hungarian women's giant slalom contest in the Tatra Mountains. Enriko Kovari finished first when she covered the course in 117.75 seconds. The former champion—her mother—had to give up after a spill.

Roque to Defend Title

VIENNA, Feb. 26 (AP).—European junior-welterweight champion René Roque of France defends his title against Turkish challenger Cemal Kamaci on March 16 at the Vienna Stadthalle.

Nicklaus 69 Leads PGA, Palmer at 75

By Lincoln A. Werden

PALM BEACH GARDENS, Fla., Feb. 26 (NYT).—Jack Nicklaus, in pink shirt and red slacks, walked off the 18th green in the sunshine yesterday after posting a three-under-par 69 in the Professional Golfers Association championship tournament. His score, completed at midday, was good enough to hold a one-stroke edge after the first round.

Some five hours later, a rain-shattered Arnold Palmer, caught in a late downpour at the PGA National Golf Club, finished with a 75.

A carelessly missed six-inch putt at the ninth green gave Palmer a 40 for the front nine and was part of a disappointing round that included 35 putts on surfaces he found difficult to read. The PGA is the only important tournament which Palmer has never won.

In contrast, Nicklaus needed only one putt at 11 greens, for a total of 21 putts.

The brilliant recoveries by Nicklaus from various areas of this rugged 7,096-yard course astounded Gene Sarazen, who first won this title in 1922, only two days shy of being 69 years old.

Sarazen was paired with Nicklaus yesterday. When the round was over Sarazen, in knickers and wearing a panama straw hat, said: "I saw a real champion today. I never saw such power and Nicklaus putted magnificently."

Snead at 71

Sam Snead, 58, with a bogey 5 at the last green, just missed sliding into a tie for second place as his 71 placed him among a group of noted golfers.

Second place was shared, instead, at 70 by Bob Goalby, the winner of the recent Heritage tourney and a former Masters champion, Bob Charles, the New Zealand southpaw and former British Open title-holder, and Bobby Mitchell, a 28-year-old Danville, Va., pro, who quit school at age 15 to become a golfing apprentice.

A respected bulk of challengers were with Snead, still distinguished by his characteristic sidewinder putting style. They include Tony Jacklin of England, the current United States Open champion, Gary Player, of South Africa, the 1962 PGA winner; Bruce Devlin of Australia; Johnny Miller and three former United States Open champions—Billy Casper, Lee Trevino and Julius Boros.

"It was a good, bad, beautiful, terrible round," said Nicklaus. "You're going to have a wild round on this course and scramble to score because it's too tough to hit 18 greens in regulation."

The current British Open champion, who won the PGA in 1963, did some fantastic things on the last four holes. Nicklaus hit a wedge to within a foot of the cup for a birdie at the 15th green. Then at the par-3, 193-yard 16th after his tee shot was buried, he recovered to within 13 feet and promptly sank the putt for a spectacular par.

The 17th proved complicated but it had a happy ending after Nicklaus took 35 minutes to complete play on the hole. His drive went off the fairway right close to a pine and behind a palmetto. His escape route to the left was blocked by a truck with a television camera, and the crew was "out to lunch." After more delay, the vehicle was shifted to the fairway. Nicklaus then sliced around the palmetto about 140 yards into the rough on the left of the fairway. His No. 6 iron shot went over the green, but he pitched back to within six feet of the flagstick and sank the putt for a par 5.

After that Nicklaus pushed his drive at the 18th, slammed a No. 4 iron second to a bunker in front of the green. Then he knocked the ball from the sand nine feet from the pin and holed for a concluding par 4. "I hate to recall this round," said Nicklaus when it was all over.

FIRST-ROUND LEADERS

Jack Nicklaus	35-34—69
Bob Charles	36-35—70
Bob Goalby	36-34—70
Bobby Mitchell	34-36—70
Bradley Anderson	34-37—71
Deane Beman	34-37—71
Julius Boros	37-34—71
Billy Casper	35-36—71
Bruce Devlin	36-35—71
Larry Hinson	36-35—71
Tony Jacklin	35-36—71
Johnny Miller	34-37—71
Gary Player	36-35—71
Sam Snead	36-35—71
Lee Trevino	35-36—71
Bert Yancey	34-37—71

r. Charles Lincoln Baldwin, iler, Makes an Appearance

By Neil Amdur

/ YORK, Feb. 26 (NYT).—r mystery man has emerg- track and field, to compete e 83d annual National r Athletic Union indoor nships tonight at Madison Garden.

name is Charles Lincoln , a 22-year-old miler from en Mountain Athletic As- in Burlington, Vt. If that ation doesn't ring a bell catalogue of quality milers, e such sub-four-minute as Chuck Labenz, John and Henryk Szordykowski, this reaction at AAU meet rters yesterday:

k he's a presidential can- in the New Hampshire and somehow his name got in the mile," one official said. "We've got over 500 entries in the meet, and he's certainly the most mysterious."

AAU directors received a time of four minutes 6.9 seconds from Baldwin, which was under the 4:07.2 qualifying standard for the mile. But they did not know where the time had been recorded, when, or under what conditions.

Who Knows?

"There might have been a tendency to discard the entry," said another official, who recalled that Dan Ferris, the meet director, once had tossed out an entry from a competitor who had entered the mile and 35-pound weight throw. "But after what happened once this year with Dr. Meriwether, who knows anymore."

Dr. Meriwether, of course, is Dr. Delano Meriwether, the 27-year-old hematologist from Baltimore who has delighted spectators from Boston to Los Angeles with his run-for-fun philosophy this winter. Dr. Meriwether was sidelined last weekend with a pulled muscle, but indicated he would compete in his first national meet.

"I'll be there," the doctor said yesterday, by phone from Baltimore, between breaks in his duties at the Baltimore Cancer Research Center. "I've worked out and the legs seem to be OK."

A total of 42 Olympians—25 Americans and 17 athletes from nine foreign countries—will compete in the last Garden meet of the season, which begins at noon with afternoon trials.

The mile will be run minus Jim Ryun and Marty Liquori, the defending champion, who is bypassing this meet to concentrate on other competition in subsequent weeks. Baldwin, however, said he did not enter the mile as a rabbit or to run on the heels of Labenz, Mason or Szordykowski, the Polish Olympian and last year's runner-up.

"I ran a 3:05 for three-quarters ten days ago, and I wasn't even running hard," Baldwin said. "If they're going to dawdle through the race, I think I can make it pretty interesting over the last quarter-mile."

Regazzoni Uninjured In Ferrari Crash

JOHANNESBURG, Feb. 26 (AP).—A Ferrari racer car was destroyed in a 100-miles-per-hour crash at Kyalami Circuit here today but the driver, Swiss-Italian ace Clay Regazzoni, was not injured.

Regazzoni arrived in South Africa this week to test Ferrari's entries for the South African Formula One Grand Prix March 6. Observers said he came too wide out of the sharp righthand "sunset corner," spun across the track, and hit a bank.

ssen Opens idon Tennis h Victory

ON, Feb. 26 (UPI).—g champion Marty Ries- Evanston, Ill., one of the oor players in the world, ast South African Frew , 6-3, 6-0, today to reach nd round of the Rothman's onal tennis tournament at l Albert Hall.

Newcombe is top-seeded in rnament over top money- Rod Laver.

started the tournament bang by breaking McMil- rvice in the first game g on to a 4-0 first-set won in 52 minutes.

rprise of the four-match singles session was the 6-3 victory by 25-year- on Graham Stilwell over Gimeno of Spain. Stilwell naged only four victories first year as a profes-

ner matches, Tom Okker past Briton Mark Cox, and Roy Emerson beat olle, 7-6, 7-6, in an All- n first rounder.

Miss Pigeon Wins

HESTER, Mass., Feb. 26 -Krispy Pigeon of Danville, ored the first major upset $12,500 national ladies' championships yesterday, g Julie Heldman, 6-4, 0-6,

Art Buchwald

Saving Your Job

WASHINGTON.—The trouble with most business administration schools is that they teach you everything about business except how to keep your job when a company starts to lay off people during an economy drive.

Buchwald

"The reason they don't teach you how to survive during an economy wave," said my friend Wholesworthy, who has lived through every pink slip crisis in his company for 20 years, "is that the only way to keep your job during a personnel reduction is to fight dirty, and schools don't want to admit you have to fight dirty to stay in business."

"Give me an example," I said.

"All right, suppose you are working as an executive for the Softserve tennis ball company. The word is out that there is going to be a 15 percent across-the-board cut in jobs. You don't sit back and wait to see if you're in the 15 percent. You act immediately.

"You go to see Croton, the vice-president in charge of personnel, and you say, 'If you have to fire someone in my department, Mr. Croton, I would prefer it be me rather than O'Toole. You see, O'Toole has had some serious problems and that is why he hasn't been able to function for the past six months.'

* * *

"Croton will reply, 'Problems, what problems?'

"'His drinking, sir. When O'Toole first came here he never touched a drop. Then he fell apart. But it wasn't his fault. You'd have taken to drink too if you had been under the pressure he's faced lately.'

"'Pressure, what kind of pressure?'

"'Well, sir, O'Toole's a friend of mine and that's why I hope I'm not violating a confidence. The pressure came mainly from his gambling. O'Toole started losing heavily to the bookies and they threatened to tell his wife about the woman O'Toole was keeping if he didn't pay his debts.'

"'O'Toole was gambling and keeping a woman and he's got a drinking problem and you want me to keep him on the payroll?' Croton will say.

"'We all make mistakes, Mr. Croton,' you protest. 'As soon as O'Toole straightens out his financial affairs and makes up his mind whether he's going to get rid of his wife or his mistress, he'll be a great addition to the company.'

"At this point Croton will get suspicious and say, 'How come you're begging for O'Toole to stay and you to go?'

* * *

"'Because,' you reply, 'the shape O'Toole's in, he'll never be able to get another job, while with my record and sales contacts, I can get a new position with another company tomorrow.'"

Wholesworthy said to me, "Now if you were Croton, which man's head would you put on the block?"

"Poor O'Toole," I said. "I knew him well."

"There are other methods of holding on to your job during a cutback period," Wholesworthy said. "One is to go to Croton and say, 'I don't envy the dirty work the board of directors has assigned you, Mr. Croton. Before you're finished, you're going to be the most hated man in the company.'

"'Yes, it's true,' Croton will reply. 'They'll all hate me. What can I do?'

"Why not form an employees' 'Force Reduction Committee' and let the committee absorb all the blame for the cuts in personnel? We'll take all the flak.'

"'Who's we?' Croton will ask.

"'Me and my committee,' you say. 'Whenever someone screams you can blame it on us.'

"'You're a good man, Wholesworthy. I don't know what the company would do without you.'"

Shostakovich Work

MOSCOW, Feb. 26 (Reuters).—A new work by the Soviet composer Dmitry Shostakovich—a vocal cycle entitled "devotion"—was performed for the first time yesterday in Moscow, Tass news agency reported.

Mary Blume

"The trend is that audiences are becoming more and more discerning and that as a rule the audience's ability to assimilate film is greater than the studio's or the exhibitor's."

Phil Stern.

Warren Beatty's Independent Declarations

HAMBURG.—This ghastly German television woman in paisley plus fours was circling around Warren Beatty, who sat, demure in a navy blue suit, waiting for the next take of Richard Brooks's new movie, "$."

"Everyone says Warren Beatty is very difficult," she said to Warren Beatty, moving in. Her waistcoat was paisley, too. "I want to ask you just one question for our program: What do you think of cruelty in films?"

Cruelty in films! "Sure," he said nicely. "I'll do it if you do it in a two-shot with me." Agreed. He explained, when Fraulein Paisley went off to make the arrangements, that a two-shot (in which he would be shown with the interviewer) is harder to tamper with later than a shot of the interviewee alone.

No sooner had Warren Beatty put himself in front of the TV camera than he was back. "They must think I'm awfully stupid not to notice the camera was only on me," he said, laughing and shaking his head. "It wasn't a two-shot at all. It's interesting. People say, won't you do something? You say, fine, I'll do it if you'll do it with me. And they won't."

Fraulein Paisley reappeared. "Warren Beatty *is* difficult," she said.

Difficult ... aloof ... the freshest kid on the block until "Bonnie and Clyde," which he produced, starred in and persuaded reluctant distributors to take, made him "Warren-baby" to *le tout Hollywood*. Warren Beatty is a shrewd, entertaining and occasionally unprintable commentator on film-making today.

The alleged swing to romance that has been ballyhooed with the success of "Love Story" won't add up to much, he says. Film romance calls for the lovers to face an insurmountable obstacle, traditionally adultery or a fatal disease. There aren't that many photogenic terminal illnesses, he points out, and adultery is hardly a cause for concern these days.

"By now, after the motorcycle pictures and student protest pictures, they'll learn that trends don't mean much. The only trend is that audiences are becoming more and more discerning and that as a rule the audience's ability to assimilate film is greater than the studio's or the exhibitor's."

Before coming to Hamburg to make "$," Warren Beatty starred with Julie Christie in Robert Altman's "The Presbyterian Church Wager," a Western shot in Vancouver. Many of today's top young actors are fascinated by the mythic qualities of the Western. Warren takes it more coolly.

"To me the Western form is a bunch of ——. I don't know what they're talking about. I hate the term classic Western. It sounds like a Frenchman who's never been West, and it usually is."

What kind of a part does he play? "A classic Western hero," he says, nearly straight-faced.

He made "The Presbyterian Church Wager" because he felt he needed to do a film with Julie Christie, whom he flies off to visit each weekend in London.

"She really has perspective, she's really an artist. She's unlike any actress I can think of. She knows she's good, but she has a greater objectivity—she knows what the hell difference does it make?"

In 11 years in Hollywood Warren Beatty reckons that he has made nine films, three of them in a rush at the beginning. It's a nice leisurely pace that has left him ample time for the study of languages, ladies and politics.

"Making a lot of movies is a waste of time," he says. "I'd rather waste it in the conventional ways."

He has undertaken "The Presbyterian Church Wager" and "$" without a break between the two in order to get back into training. "I've taken so much time off, I felt I hadn't been in a legitimate picture since 'Bonnie and Clyde.' Now I feel a certain momentum. I'm used to getting up in the morning."

The project Warren Beatty is in training for is a film about Southern California that he will produce, direct, write and star in. "I expect it to take a long time," he says, "I expect it to take a lot of work, I expect to have a lot of problems."

"I find one problem," he added. "It's not a problem, it's an indulgence. You make a film in your head. You see it in your head and it's pretty good. So you don't want to go to the trouble of actually making it—you don't want to contend with the labs, the unions, the dubbing. It's such a hassle making a film, it's just an industrial task."

Like his sister, Shirley MacLaine, Warren Beatty is determined to be independent, to go at his own pace "—— there's no point in keeping in motion just to keep in motion." He has a jaunty exterior, and a raging stomach ulcer that suggests it isn't all as smooth and easy as it seems.

His independence is partly a way of fighting uncertainty. "I've always found it hard to believe I would stay in movies," he says. "Part of doing my own movie is I want to go on to other things. I don't really see beyond making one more movie."

"I feel I'll get out of this form, certainly out of acting. I say that without meaning it," he added, "without knowing if it will come true."

PEOPLE: *Sir John French's Mementos in Ho[...]*

World War I mementos of Sir John French, who commanded the 1914 British Expeditionary Force, were pawned by his grandson, the Earl of Ypres, a London bankruptcy court heard Thursday. They included a collection of decorations, silver presentations, two swords, French's field marshal's baton and his war diaries. The Earl, John Richard Charles Lambart French, said he is now living off state benefits and owes $65,988. He valued his assets at $102,060, including $84,000 he expects to get when he publishes the diaries. He said he failed because of business setbacks. The hearing was adjourned until April 29.

* * *

Susan Blair beat out 301 men to become the first woman to rank at the top of her class at the U.S. Air Force Officer Training School in San Antonio, Texas. A women's liberation advocate? Forget it. "I still like to be treated as a woman," says the pretty Tennesseean. After she received top honors at graduation at Lackland Air Force Base this week, Susan, 21, said, "I really didn't expect it. But I think the gentlemen in my flight knew it before I did and were pulling for me." The shapely new second lieutenant was one of 27 women among the 328 graduates.
